**Compare**

	Qty of quantity analysis	Average Cost	Total (USD)
Pick and pack	2142	\$50	107100
High cubic	8197	\$20	163940
	6330	\$10	63800

**Results**

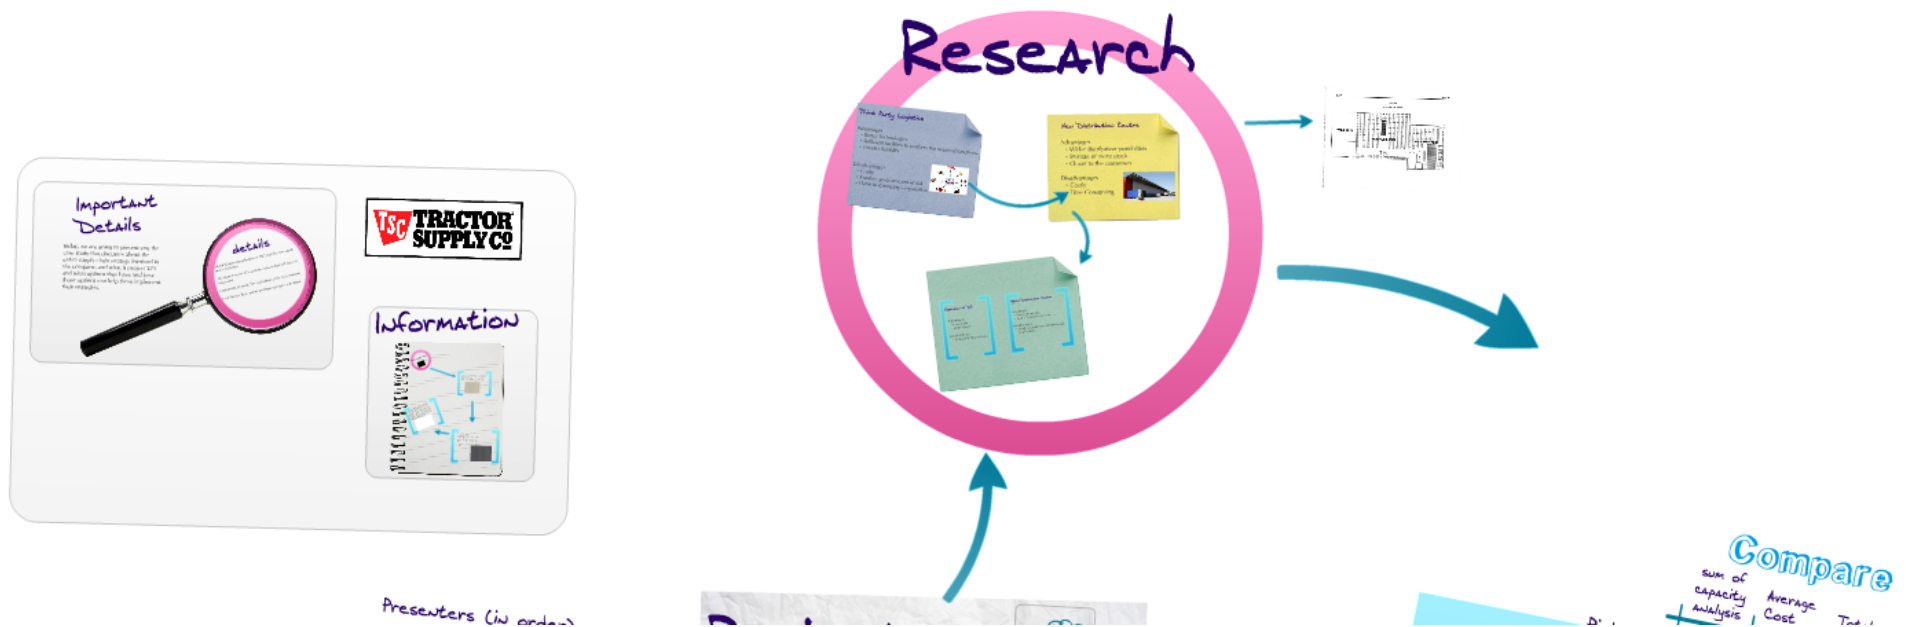

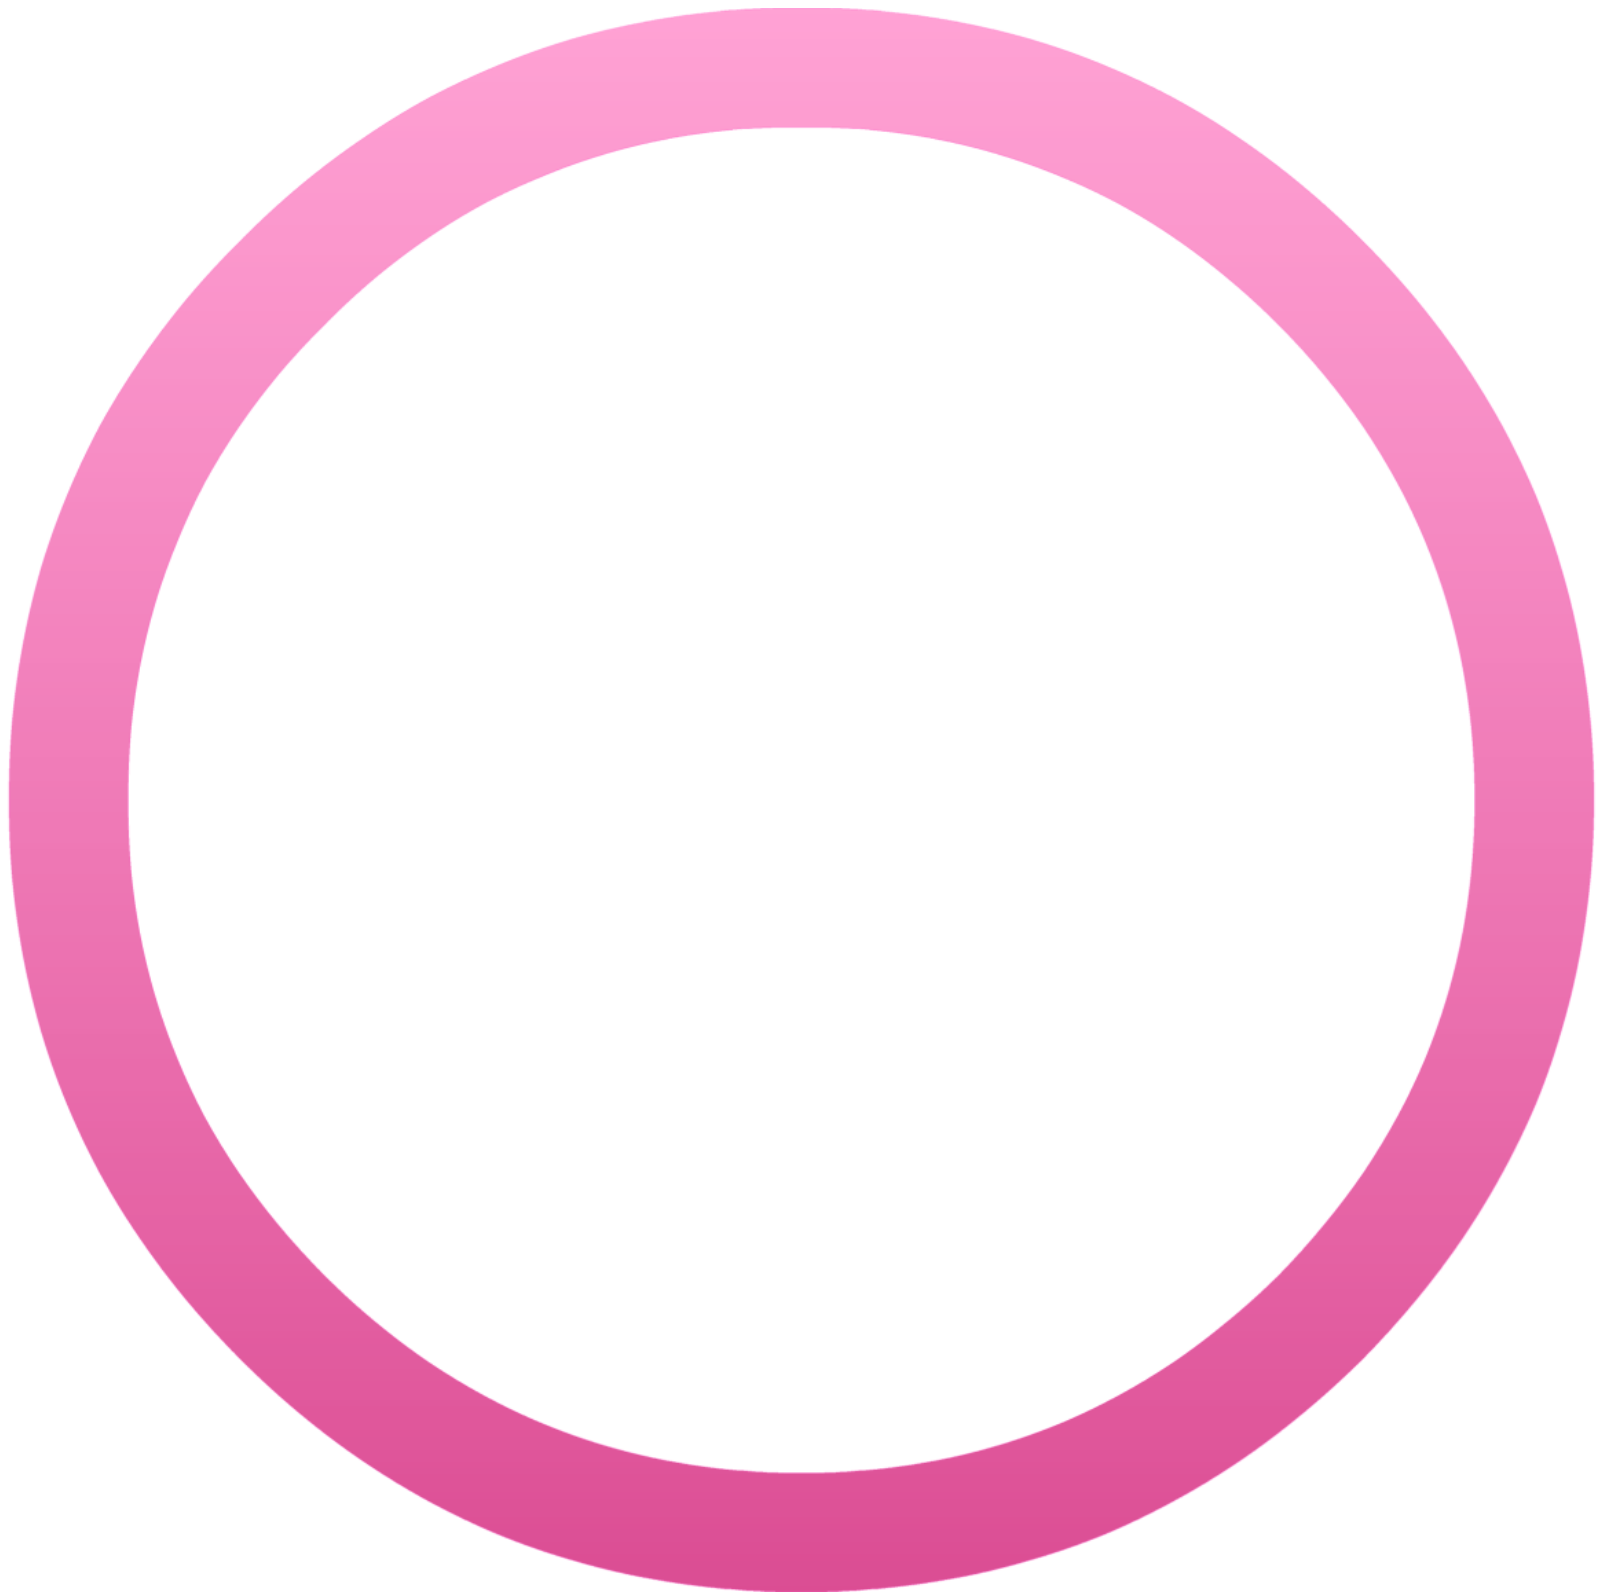

**Conclusion**

considering the factors that have been presented to us, we believe that option for the expansion options would be an brilliant idea for the short-term factors and even it would help them in the long-term, but still keeping in the mind the cost and the supply/demand of the stores.

Thank you for your time AND ANY questions? :D
