

Bringing these Ideas to Life

Health Innovator's Hackathon Meetings

- Once these new innovations and ideas have been established, hackathons will provide a medium to bring these ideas into the real world
- We will hold hackathons to create a minimum viable product to realize these ideas to the better of all
- These innovations will be specifically tailored to suit The Joslin Diabetes Center's direct needs

The Joslin Diabetes Center

A collaboration to promote innovation

Who We Are

- Dr. Kalyan Kalwa M.D.
• Co-Founder of HI
- Mr. Michael Krieger
• Co-Founder of HI

Our Vision of this Collaboration

- Joslin's mission statement is to prevent, treat and ultimately cure diabetes
- HI's primary goal is to use our connections to innovate new ways of aiding Joslin to accomplish their mission statement
- Through unconferences, conferences and hackathons, we can collaboratively accomplish this goal

The Big Picture

The path to innovation

- HI will specifically tailor their events to focus on the pain points the Joslin Diabetes Center is currently facing
- HI will promote the Joslin Diabetes Center at all events
- HI aims to work collaboratively with the Joslin Diabetes Center to promote one another
- By becoming partners, Health Innovators will be able to accomplish their goal of bringing the best and brightest healthcare professionals into an environment with the best and brightest technical minds in the world, thus leading to innovation
- The Joslin Diabetes Center can aid HI in realizing this vision much more quickly and efficiently

Health Innovator's Unconferences

Living partnerships drive meetings to promote innovation

- Connect brilliant, fresh minds to promote innovation
- Utilize HI's connections to healthcare professionals
- Utilize HI's professional connection to MIT
 - MIT will provide the technical resources (staff, students, technology etc.)
- Bring these minds together under one roof to solve specific pain points
 - Ex. 29.2% of diabetics are undiagnosed in the US

What HI is asking of The Joslin Diabetes Center

Support, branding and a helping hand

- HI requests permission to use the Joslin Diabetes Center name to stimulate interest and help bring more healthcare professionals to these unconferences, conferences and hackathons
- Additionally, this would help in bring in more diabetes specific healthcare professionals
- HI would provide the Joslin Diabetes Center the option to choose the location of our events
- Current meetings will be held at a location provided by MIT (newscampus/barnard.edu)
