**In comparison to the Denmark Strait
cataract 11,500 feet ,the largest waterfall in
the world, Niagara falls may seem small
being only 167 feet but its still quite large.
While not being very tall it still takes up
alot of space being 2500 feet wide.**

TheCaseSolutions.com

while it may seem very beautiful this waterfall has taken the lives of 5,000 people between 1850 and 2011.
