Sustaining the Akshaya Patra Foundation (A)

Thecasesolutions.com
SCHOLARSHIP AND ESSENTIAL LIFE SKILLS FOUNDATION

ABOUT:

Thecasesolutions.com

Danbobidu's Foundation was established in 2014 to promote education in a community where girls are often neglected to take part in the decision making process. In rural parts of Oromia such as Bueha-Rayya, young girls are recruited and many times sent to labor at very young ages. Those who managed to stay in school will more than likely drop out at some point before they graduate from secondary school. As we know all too well, education is not only important for oneself but for a whole family and entire community.

MISSION:

Thecasesolutions.com

Danbobidu's Foundation mission is to promote and finance girls' education and to provide an after-school program where girls are taught life sustaining skills. Also, if successful, Danbobidu's project in Bueha-Rayya school is to be used as a pilot project to start similar projects throughout Oromia. One of the main goals of the foundation is to create a system where every needy girl is given financial support to remain in school while learning other life skills to sustain her life in the event that need arises. Danbobidu's foundation will support any girl with top raking grades to remain in school and be trained for life sustaining skills which will enable her to live a happy life.

IN AMERICA

Thecasesolutions.com

Being a young girl in
America is much different
than being a young girl in
Oromia.

Living in America gives us the luxury of having great elementary schools within our neighborhoods, some that are even tuition free.

Thecasesolutions.com

Not only do we graduate from elementary school, we can all receive a high school diploma and have a great chance of pursuing higher education.

Lastly, we do not live in a third world country. Making our struggles very minute compared to someone who does live in a country with little access to what we take for granted.
