**a dimension of sound, a dimension of sight,
a dimension of mind.**

An aerial photograph of a coastline. A light-colored, sandy or paved area, possibly a road or beach, runs diagonally from the top left towards the bottom right. To the left of this path is a dark, textured area representing a body of water. To the right is a green, vegetated area. The overall image is slightly blurred, giving it a sense of motion or a wide-angle shot.

**You're moving into a land of both shadow
and substance, of things and ideas.**
