

Zoetis, Pfizer's Animal Health Spin-Off (B)

Objectives

Recap information from last week

Describe signs of good and poor health (p9)

For the assignment it is necessary to identify signs of health for the Western Lowland Gorilla, African Elephant and Ostrich

Compare the signs of health between species

SNOWBALL FIGHT!

On a scrap of paper write down either one cause, prevention or control method of ill health.

Throw it at somebody!

Collect up the pieces of paper and read out what you have

Tennis!

Rules of the game -

In groups of three label yourselves players (2) and an umpire
Each player has 5 seconds to say an aspect of a yearly health check (i.e. checking eyes for excess fluid).
It is the umpire's job to make sure each player stays within the time limit, and that the players are giving correct answers.
If the players cannot say a correct answer in the time limit, then the opposing player gets a point.

First to 5 wins!

Zoo Animal Health

Create a list of signs of poor health for both the Gorilla and Elephant

You get one point for each sign

You have 30 seconds
