Goals 4 Measurability

Short-term goals

- Utilization of mobile health clinic
- Identify health needs beyond the scope of the mobile clinic
- Facilitating partnerships with other community resources

Long-term goals

- Decreased absenteeism for children at Tomas Rivera
- Increased immunization compliance for children and families
- Early preventable health care services
- Increase health related independence within the community through health learning to support the community in sustaining an improved health status

Measurement

- Student absenteeism will be reduced by 10% within 2 years, measured via attendance across from the school records
- Vaccination compliance rates will be 100% within 2 years, measured via school records
- Number of patients utilizing the health clinic

Evaluation Plan

- Set your needs increased to identify "demonstrated" the mobile clinic implementation
- Self-report surveys for families with the target health care needs
- Direct monitoring and analysis of client status on the base
- Randomized patient satisfaction surveys
- Randomized patient adherence
- Randomized patient adherence
- Randomized patient adherence

Investment/ Appropriately Culturing Vaccine Care

- Investment in mobile clinic
- Investment in staff
- Investment in equipment
- Investment in marketing
- Investment in community outreach
- Investment in data collection
- Investment in evaluation
- Investment in sustainability

Barrier Planning

- Identify potential barriers
- Identify potential barriers
- Identify potential barriers
- Identify potential barriers
- Identify potential barriers
- Identify potential barriers
- Identify potential barriers
- Identify potential barriers

Implementation Plan

Phase 1

Assess the current state of the community, to include physicians, home practices, and other resources. Identify the needs and resources. The mobile clinic will be implemented in the community with a focus on the most vulnerable population.

Phase 2

Recruit and train staff. The mobile clinic will be implemented in the community with a focus on the most vulnerable population.

Phase 3

Implement the mobile clinic. The mobile clinic will be implemented in the community with a focus on the most vulnerable population.

Phase 4

Evaluate the mobile clinic. The mobile clinic will be implemented in the community with a focus on the most vulnerable population.

Implementation Plan

Location and Accessibility

The mobile clinic will be located in the community with a focus on the most vulnerable population.

Staffing

The mobile clinic will be staffed with a focus on the most vulnerable population.

Equipment

The mobile clinic will be equipped with a focus on the most vulnerable population.

Marketing

The mobile clinic will be marketed to a focus on the most vulnerable population.

Evaluation

The mobile clinic will be evaluated to a focus on the most vulnerable population.
