## Analysis

I think the story of David and Goliath can be a relevant story any time the underdog comes out on top. Anytime you don't think you can and you do. The little engine that could, winning a sports tournament or even a game, maybe you just surprised yourself with your own talents. The victory isn't what makes it a parallel to David and Goliath, it's the struggle, and the doubt that comes before. The honor of working for what you want and believing in yourself until you get it
