Thought Leader Interview: Dr. Eric Topol

Thecasesolutions.com

Thecasesolutions.com

1. What has happened?
2. What is happening today?
3. What we are proposing to do?

Thecasesolutions.com

In 1995, the Information and Education Committee of ASHG concluded “every physician who practices in the 21st century will require a basic knowledge of principles of human genetics and their application to a wide variety of clinical problems”

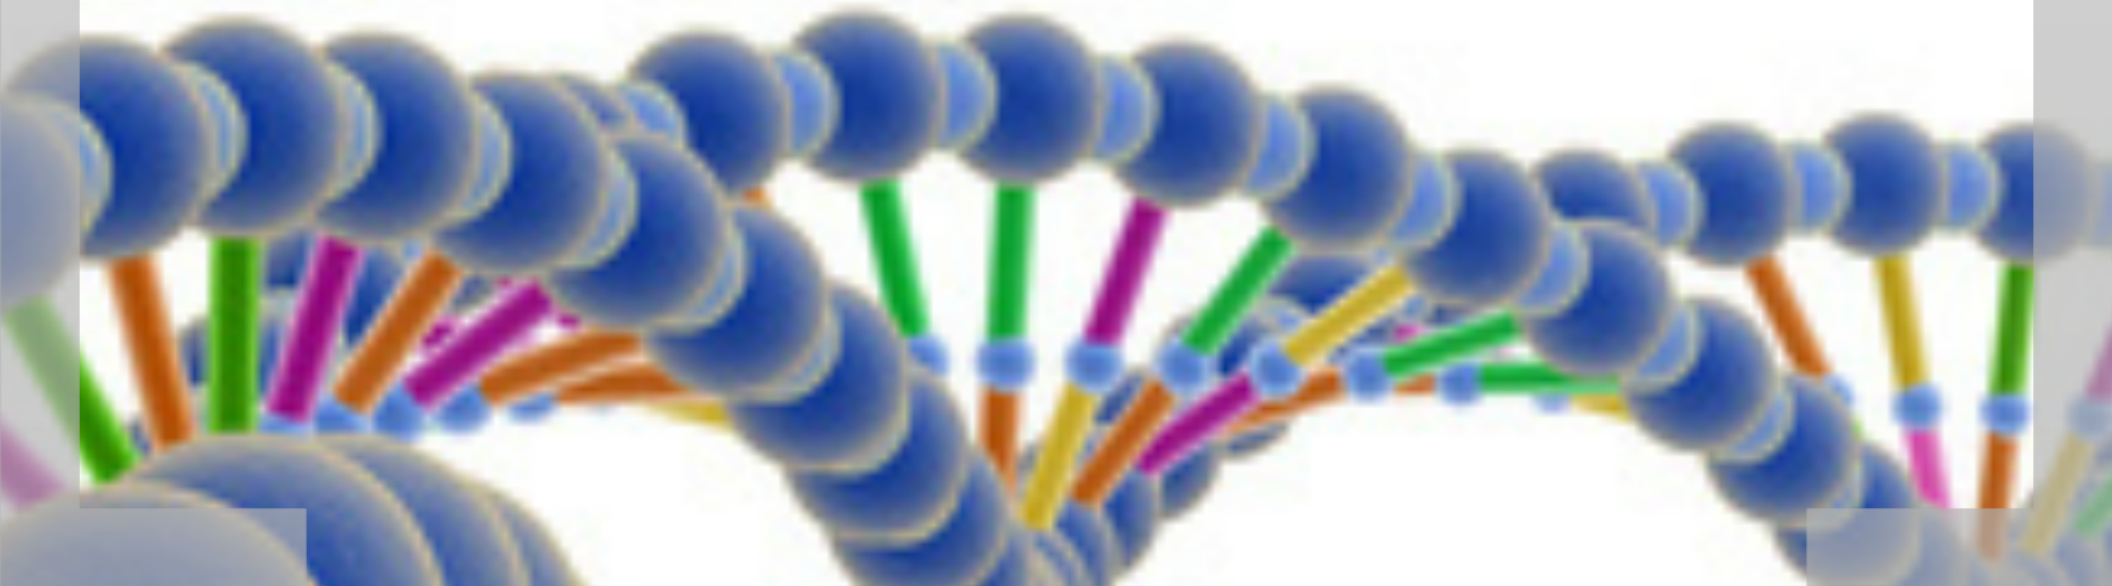

Thecasesolutions.com

Background

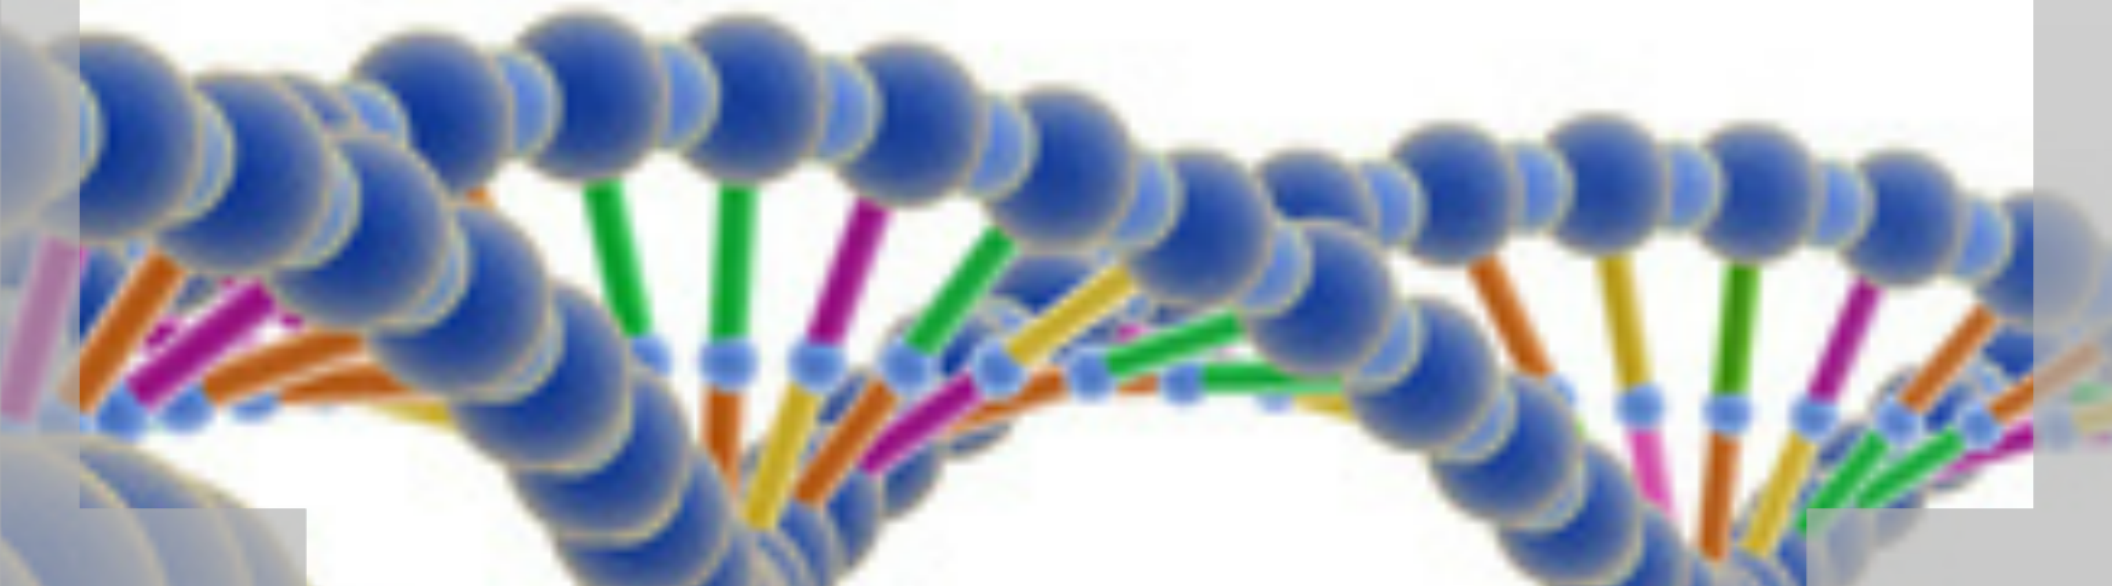

Thecasesolutions.com

genomic medicine is not another fad..

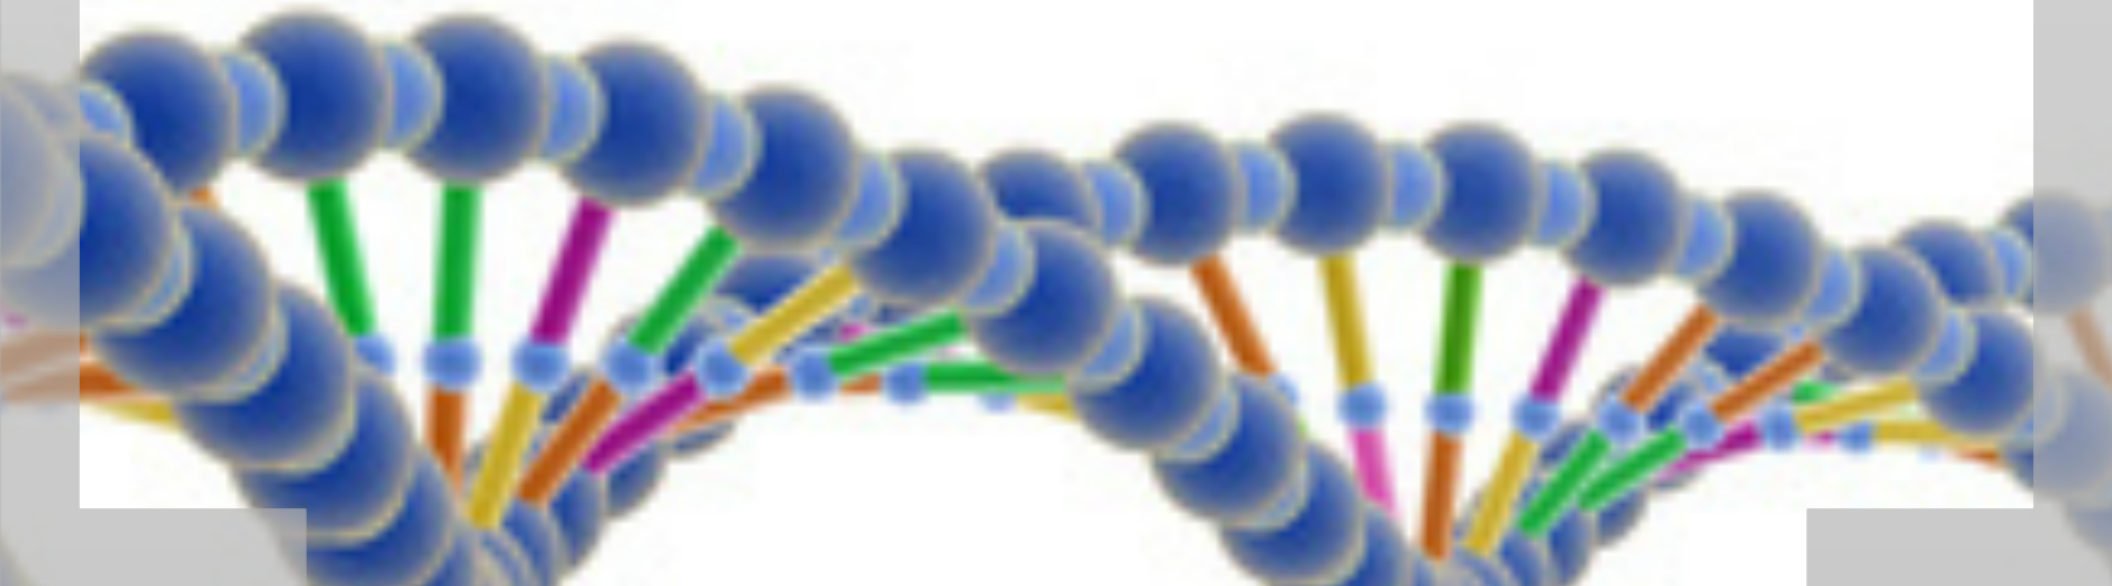

Thecasesolutions.com

medical students are not prepared
to practice medicine
in the 21st Century

Thecasesolutions.com

of course teaching one to wash their hands
will save a lot of lives...

Thecasesolutions.com

...however the speed of innovation is
outpacing medical education
