Location

Thecasesolutions.com

The relative location of Amsterdam Netherlands is bordered by Germany, Belgium, and the North Sea. The absolute location would be about 52.37° North and about 4.89° East.

Place

Thecasesolutions.com

Amsterdam is a very flat lands with amny canals which you will learn about inj this circle. Attractions that Amsterdam is known for, are the canal ring where you can use a canal and paddle around the city/town.

Another place is the Van Gogh museum. It holds 200 of Van Gogh's sketches 500 and paintings.

The third attraction is the Royal Palace of Amsterdam. It was

built in the 17th century for Louis Napoleon and later, the dutch royal house. A place I would suggest you go if you ever visit Amsterdam

The Van Gogh Museum

Movement

Human Environment Interaction part 1

Thecasesolutions.com

They depend on the environment because because of the canals. The canals help bring in tourist to see the beautiful city. They depend on the water levels so the canals are to high or two low. They also need to make sure that they are still strong so that they don't get to much water flowing in the town and in there lakes.

Human environment interaction part 3

They modify the environment by protecting it because they want a healthy environment. They enjoy a good quality environment more than a good quality neighborhood. They place a lot of focus on it. Another way they modify the environment is by fixing up the environment friendly canals.
