Api Authorization

The image shows a 'GET NEW ACCESS TOKEN' dialog box from the Postman application. The dialog is titled 'GET NEW ACCESS TOKEN' and has a close button (X) in the top right corner. It contains the following fields and options:

- Callback URL:** `https://www.getpostman.com/oauth2/callback`. Below the field, it says: 'Set this as the callback URL in your app settings page.'
- Token Name:** `Bearer`
- Auth URL:** (Empty text field)
- Access Token URL:** `https://api.yaas.io/hybris/oauth2/v1/token`
- Client ID:** (Redacted with a black box)
- Client Secret:** (Redacted with a black box)
- Scope (Optional):** `hybris.document_manage`
- Grant Type:** A dropdown menu showing 'Client Credentials'.
- ☒ **Request access token locally**

At the bottom right, there are two buttons: 'Cancel' and 'Request Token'.
