Case Study

TheCasesolutions.com

A case study (CS) is a simulation of a true-to-life situation and some problem to solve in which students analyze information and create ways of dealing with it

Features of a Good Case

TheCasesolutions.com

- simple + related to the specialty
- explicit + up-to-date
- accurate + engaging

[Smolyaninova, 2010]

Case Design

TheCasesolutions.com

- 1) Introduction (optional)
- 2) Background information
- 3) The problem or problems (optional)
- 4) Sample solution
- 5) Questions and tasks

Recommendations

TheCasesolutions.com

- 1) Use the CS method in teaching ESP to physicists
- 2) Oral discussion of results is recommended
- 3) Use it as a controlled exercise
