

Change the Nike logo to a snake

Although these movements are great, they will never work. Nike is too big of a company for people to stop purchasing goods from. In a perfect world, people wouldn't support Nike because of their actions. Sadly, this world isn't perfect and people will be happy to buy a \$10 shirt regardless of how it was made.

All of this Nike hate has also resulted in Anti-Nike movements across the globe

This is important because it shows that people in America know about these human right violations Nike's globalization is causing, yet they aren't doing anything to stop it.

In June 1996, Life magazine published an article on child labor in Pakistan, which included a photo of a 12 year old boy stitching a Nike soccer ball. This article and its accompanying photo unleashed another wave of criticism against Nike and a call by various consumer groups, trade unions, and NGOs to boycott Sialkot-produced soccer balls.

This high school team became Nike's cashmere as being paid to help their sponsors afford their recruitment to recruit to basketball courts.

This team really says to students worldwide that 'it's all about the money'.

A Day?!

In the early 1990s, Nike's public relations strategy was to promote its products, including Nike Air, by sponsoring elite athletes. Nike's primary sponsor was the U.S. Olympic team. Nike's primary sponsor was the U.S. Olympic team. Nike's primary sponsor was the U.S. Olympic team.

In Pakistan, he has created a new world with the help of Nike. Nike is the only company in the world that is willing to pay people to work for them. Nike is the only company in the world that is willing to pay people to work for them.

This picture is a cartoon illustration because it shows a person who is being exploited. The person is being exploited by Nike. Nike is the only company in the world that is willing to pay people to work for them. Nike is the only company in the world that is willing to pay people to work for them.
