What Agile is

Thecasesolutions.com

Some of the brightest and most successful engineers in the industry got together to discuss and uncover better ways of developing software.

The results were deceptively simple.

Four Values

We Value ALL of these things, but we value the items on the left more.

Thecasesolutions.com

- Individuals and interactions over processes and tools
- Working software over comprehensive documentation
- Customer collaboration over contract negotiation
- Responding to change over following a plan

Twelve Principles

Summarized

Thecasesolutions.com

- Customer Focus
- Embrace Change
- Deliver Fast
- Empower Workers
- Crossfunctional Teams
- Face to Face Conversation
- Working Software
- Sustainable Pace
- Technical Excellence
- Limit WIP
- Trust Team Solutions
- Actionable Reflection

What Agile isn't.

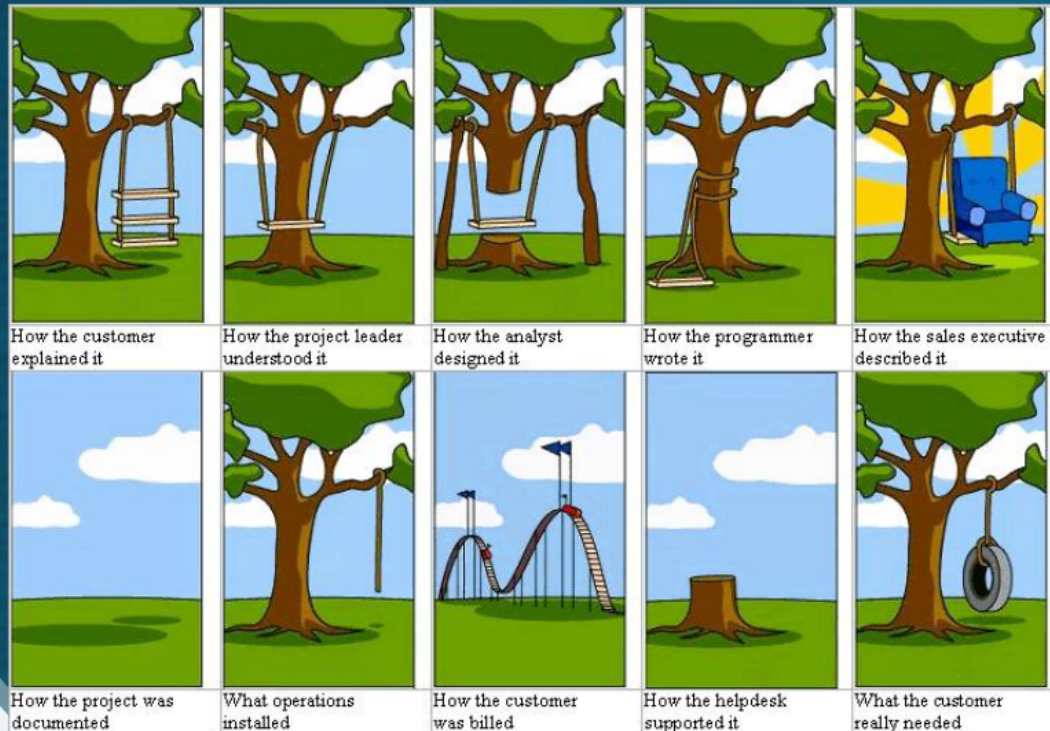

- Comprehensive
- Ironclad
- Business Focused
- Intricate
- Automatic

Thecasesolutions.com

But, guess what...

Thecasesolutions.com

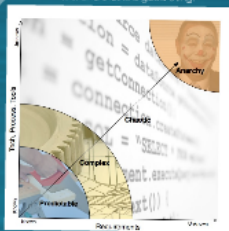

... neither is our industry.

Why we embrace Agile

Thecasesolutions.com

Software Delivery is Chaotic by nature, and that is a good thing.

Knowing we will never be predictable, it's wise to invest in processes that can manage Chaos.

Perfect planning requires perfect knowledge.

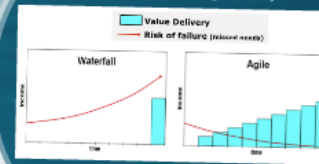

Agile adapts when we embrace change.

Agile embraces change.

Agile adapts when we embrace change.

Incremental deliveries reduce risk over time by increasing feedback and proving functionality.

Incremental deliveries can offset income risk by putting income generating features in your client's hands routinely.
