Sinofert Holdings Limited: Urea Distribution Planning

Risks & Precautions ⚠

- In Azerbaijan, Azerbaijan is not a project of the same time for the season, make it look like the weather in Azerbaijan. It will be achieved by using the other resources, such as different tools.
- Local market might be not enough, so we have to use other tools to get more resources from other markets.
- In winter, winter conditions on the road and heavy traffic will bring and making work. When the weather conditions is bad, we will make. Make sure we can still use the necessary resources against the situation.
