**What's packaging?**  
Thecasesolutions.com

Packaging is the package in which products/items are displayed and kept safe.

A container or wrapping that contains or contains something, so a container, package, etc.

**Packaging and Structure**  
Thecasesolutions.com

What is the relationship between structure and packaging?

How are these two concepts connected?

**Packaging examples**  
Thecasesolutions.com

# Southfield Packaging

**Task :)** For each of the following Products you need to sketch 2 possible packaging solutions using the Orthogonal Drawing technique.

1. Frame Structure    2. Shell Structure
