Intro to Cloud Computing

Three main methods of accessing cloud computing based services

SaaS

- Software as a service
- Operating environment largely irrelevant, fully functional applications provided, e.g. CRM, ERP, email

PaaS

- Platform as a service
- Operating environment included, e.g. Windows/.NET, Linux/J2EE, applications of choice deployed

IaaS

- Infrastructure as a service
- Virtual platform on which required operating environment and application are deployed
- Includes storage as a service offerings
