## Brookstone Ob-Gyn Associates

### Conclusion

- I learned that OB/GYNs have a lot more responsibilities than I learned that you don't have to be both.
- I also discovered a possible college choice.

### Personal

Learned that OB/GYNs have a lot more responsibilities than I learned that you don't have to be both. I also discovered a possible college choice.

### Introduction

**Definition**

- An OB/GYN is a doctor that specializes in two different aspects of the female reproductive system.
- Obstetrics deals with caring for pregnant women during labor and the months leading up to labor.
- Gynecology deals with the entire female reproductive system, including: treating menstrual problems, diagnosing cervical cancer, and deal with sexually transmitted diseases.

### Work

- Work long and hard to be here
- work in hospitals, clinics, and out-reach centers
- work in small towns that may be remote
- Average starting salary between \$100,000 and \$150,000 annually depending on where you live
- \$2,000,000 - \$3,000,000

### Preparation

- MBAs Required
- Strong Communication Skills
- Complex Problem Solving
- Time Management
- Working Under Pressure

### College

Leland Xerox University of Louisiana

- It's a 4-year, medium-sized, private university
- Lots of students attend the school and a lot of those students are undergraduates.
- Urban

YouTube video player showing a woman speaking.

# Introduction

## Definition

- *An OBGYN is a doctor that specializes in two different aspects of the female reproductive system.*
- *Obstetrics deals with caring for pregnant women during labor and the months leading up to labor.*
- *Gynecology deals with the entire female reproductive system, including: treating menstrual problems, diagnosing cervical cancer, and deal with sexually transmitted diseases.*

## *Evolution To Modern Time*

In this day and age the patients prefer a female OBGYN. Studies indicate that more than 50% of women prefer a female physician [Thorne, 1994; Chandler et al, 2000]) Since all of the patients are female, they feel like they can connect and get a better understanding from a female OBGYN.

## *Admission/Tuition*

- Good GPA ( 74% , 3.0 or higher )
- Good Standardized Test Scores ( 89% , 18 or higher )
  - Out of state tuition :  
\$21,552

## *Conclusion*

- I learned that OBGYNs have a lot more responsibilities. I learned that you dont have to be both.
- I also discovered a possible college choice.
