Fleet Operations Inc.**
TheCasesolutions.com

Executive Summary

- Software that helps racing sailors create the best strategies for their races
- Given out in a CD and can be ordered online
- Information on the company is available through taktical.com
- Target market are racing sailors in Australia, Spain and Great Britain

Mission

Taktical.com aims to create software that allows racing sailors to find out which strategy is most effective in order for them to win their race. This company also wishes to be able to reach out to racing sailors worldwide as well as to branch out to help people in other fields that may benefit from the product.

Taktical.com would also like to be profitable and be able to expand and become a corporation.

Objectives
