

What have you learned as a writer throughout our course?

This course has helped me improve as a writer in quite a few ways. First, I have definitely learned the importance of an outline. Having a required outline was a HUGE help when it came to writing the whole papers. Secondly, I learned how to tell the whole papers. Secondly, I learned how to tell the whole papers. Secondly, I learned how to tell the whole papers. Secondly, I learned how to tell the whole papers.

What is your best piece of writing? Why?

I think my best piece of writing is my MLA Documentary Analysis because it was the paper I felt the happiest writing. I'm really into gay rights and gay issues, so being able to write a paper on a major part of gay history was really satisfying for me. Since I enjoyed the paper so much, I feel like the effort and writing of the piece was the best I've done throughout this course.

What was your most difficult piece to write? Why?

By far, the most difficult piece of writing was the APA Research Paper. While it was slightly easier due to us being able to pick the topic, the sheer amount of research involved to write the paper made it difficult. The APA Paper involved focus of research as well as an annotated bibliography. With so much research, the amount of time this paper took was immense. The time-consuming nature of this piece is a major portion of why this was my most difficult paper.

Looking Forward

What did you learn in this class - about content or about yourself - that will be useful in your future endeavors?

The main thing I learned about myself is that I am extremely slow when it comes to writing assignments which means I have to make sure I have ample time to complete them. Time management is everything. I also learned that outlines are life savers- when writing in the future. I have to remember to ALWAYS try to do an outline.

Competency 2

Organize writing to support a central idea. Having organized writing was one of the central ideas taught throughout this course. For example, each essay required an outline. The requirement of an outline ensured that each essay was organized, and the peer review of the outlines ensured that the central ideas were supported. Competency 2 is even evident up till the end of this class. For instance, the final project was introduced with a competency brain storming worksheet to help ensure the writing written was organized and supported a central idea.

An example of a graphic organizer to help with organization and support of central idea.

Competency 3

Use evidence to support a central idea. This competency was a major focus of the course. We learned how to find and use evidence to support our central ideas. This was done through various assignments and the final project.

Competency 4

Evaluate and synthesize information. This competency was a major focus of the course. We learned how to evaluate and synthesize information from various sources. This was done through various assignments and the final project.

Competency 5

Apply knowledge to new situations. This competency was a major focus of the course. We learned how to apply knowledge to new situations. This was done through various assignments and the final project.

Competency 6

Communicate effectively. This competency was a major focus of the course. We learned how to communicate effectively. This was done through various assignments and the final project.

Competency 7

Use technology to enhance learning. This competency was a major focus of the course. We learned how to use technology to enhance learning. This was done through various assignments and the final project.

Competency 8

Engage in collaborative learning. This competency was a major focus of the course. We learned how to engage in collaborative learning. This was done through various assignments and the final project.

What have you learned as a writer throughout our course?

This course has helped me improve as a writer in quite a few ways. First, I have definitely learned the importance of an outline. Having a required outline was a HUGE help when it came to writing the whole papers. Secondly, I learned how to tell the whole papers, so I had to learn to edit and revise that works best for me. I tend to skip over grammatical errors, so I had to learn to see every error. I learned that it takes me at least two days to fix a rough draft, and this is because specifically for my introduction and conclusion. Last, but certainly not least, this course helped remind me that time management is extremely important. I learned it takes me a minimum of two days to clean up a rough draft through trial and error. Time is a limited resource and writing takes time- a lot of time.

What is your best piece of writing? Why?

I think my best piece of writing is my MLA Documentary Analysis because it was the paper I felt the happiest writing. I'm really into gay rights and gay issues, so being able to write a paper on a major part of gay history was really satisfying for me. The APA Paper involved focus of research as well as an annotated bibliography. With so much research, the amount of time this paper took was immense. The time-consuming nature of this piece is a major portion of why this was my most difficult paper.

[Handwritten notes on a yellow sticky note]

Competency 4

The main assignment that pushed Competency 4 was the annotated bibliography. We were to look for sources on a particular topic, evaluate the sources, and select a source for our paper. We were to write a paragraph for each source and explain why we selected it. This was a great exercise in evaluating sources and selecting the best ones for our paper.

Evaluating Sources
