Presentation Outline

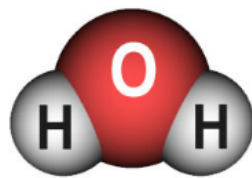

Thesis Statement: I do not believe that global warming can be stopped. I think that the damage that has already been done is irreversible.

- Global Warming and The Greenhouse Effect
- What causes Global Warming?
- The Impact of Global Warming
- A Marxist View on Global Warming: Capitalism
- A Marxist View on Global Warming: Conflict Theory
- Global Warming's Effect on the Poor Article
- Global Warming: Its Effect on Africa
- How You Can Reduce Your Carbon Footprint
- Discussion Questions

Global Warming and The Greenhouse Effect

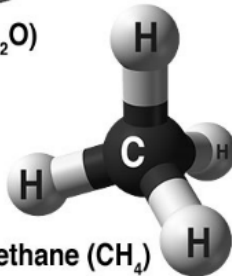

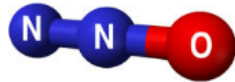

- Global Warming: a gradual increase in the overall temperature of the earth's atmosphere generally attributed to the greenhouse effect caused by increased levels of carbon dioxide, chlorofluorocarbons, and other pollutants.

The greenhouse effect is warming that results when the atmosphere traps heat radiating from Earth toward space. Gases that contribute to the greenhouse effect include:

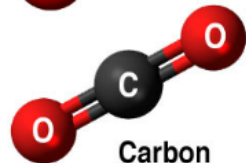

Water vapor (H₂O)

Nitrous oxide (N₂O)

Methane (CH₄)

Carbon dioxide (CO₂)
