

INTERNATIONAL ORGAN TRADE

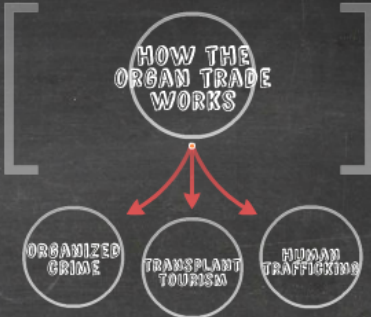

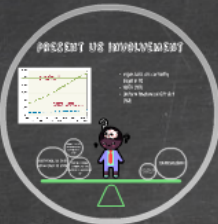

BY JANIS SHIN | 6TH PERIOD COX

In a nutshell:
 People in poverty are pressured or coerced into a surgery that harvests their organ(s) for little or no compensation.

SOME FACTS & FIGURES

The WHO estimates that:
 - 10% of all organ transplants are done through the black market
 - 100 organs sold every hour
 - 1000 people die every day

• cadaveric donations
 • have an opt-out program like Spain, instead of an opt-in
 • fund lots of stem cell research
 • educate the poor about the importance of their organs

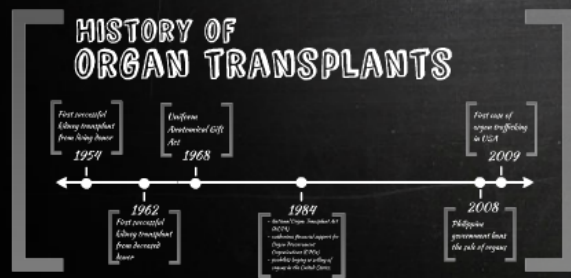

WORKS BEST!
