### Lisa Benton Case

Lisa Benton is in that mess because she got "lost" at Enron. She is the resident product manager. It is very confusing, she has been having to report to the CEO and she is also the boss of those who are reporting to her. She is the one who is reporting to the CEO and she is the one who is reporting to the CEO.

Also, Lisa Benton is the one who is reporting to the CEO and she is the one who is reporting to the CEO. She is the one who is reporting to the CEO and she is the one who is reporting to the CEO.

# Lisa Benton Case

Lisa Benton got in to that mess because as she got hired at houseworld as the assistant product manager, in the very beginning she felt like having no responsibilities at work hence constantly she was trying to ask her boss if there is something she could do at the end of the day she ended up doing the things that secretaries should do, like correcting the headings of her chats in ms word.
