-class exercise: divide class into 2 teams (crossword/ puzzle)

Skill to test: math, listening, questioning, persuading, respecting, helping, sharing, participating, situation solving

+ Rules: Each member has to compete with the other member in another team once

Follow the leader

Team 1: Jeff, Aishi, Co-co, Tracy, Zoys

Team 2: Chris, Laura, Naman, Oia, Maribel, Ani

Competition game! (Chinese music playing with the timer)

Dance: Leader choosing, name and slogan... (2 minutes)

Game 1: Back-to-Back Drawing for 2 members - 2 minutes (drawing skills + imagination + skills)

(Divide your group into pairs, and have each pair sit on the floor back to back. Give one person in each pair a picture of a shape, and give the other person a pencil and pool of paper)

Ask the people holding the pictures to give verbal instructions to their partners on how to draw the shape - without actually telling the partners what the shape is. After they've finished, ask each pair to compare their original shape with the actual drawing, and consider the following questions:

How well did the first person describe the shape?

How well did the second person interpret the instructions?

Were there problems with both the sending and receiving parts of the communication process?

Game 2: Story telling game for 2 members: 2 minutes (imagination + communication + reasonability)

Give five random dirty pictures and each team has to come up with a reasonable story.

Game 3: name guessing game - students and teachers (physical traits, background, name, gender)

Game 4: Reminding game for all team members (best memory skill)

Instructor tells a short story in a remember, then the member has to tell the story again.

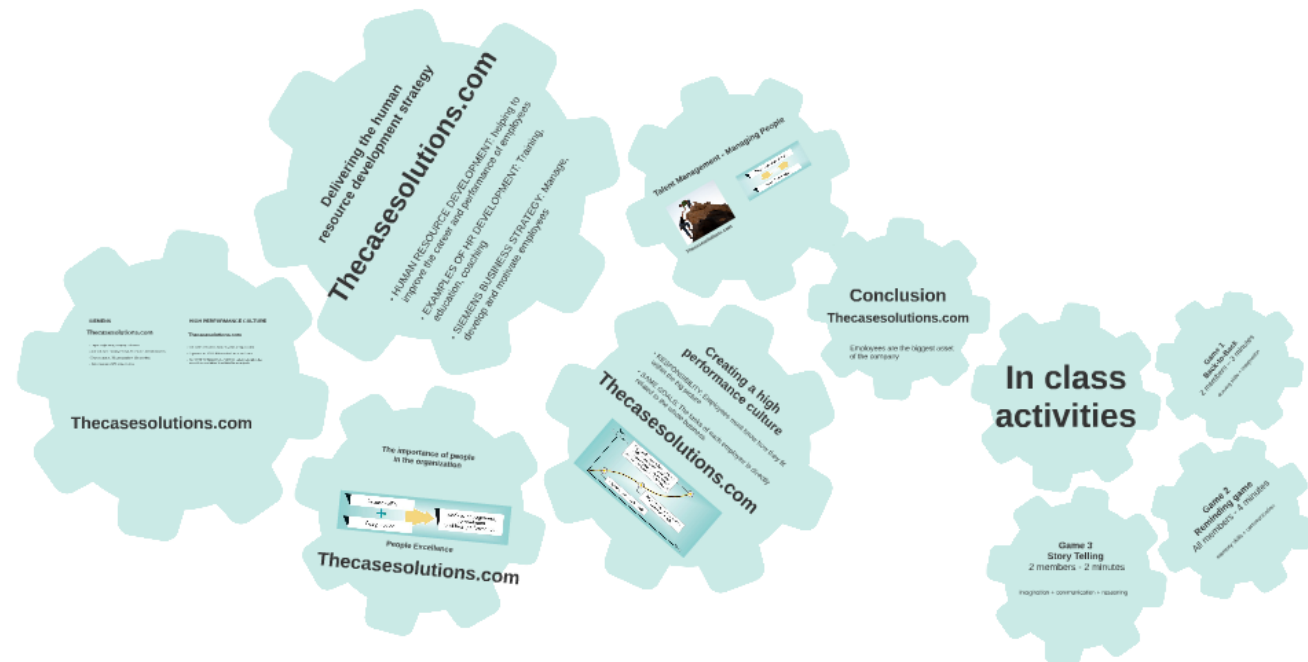

Instructor asks questions, and the other member has to answer.

Backup game: Judy's game, crossword

Conclusion from the game:

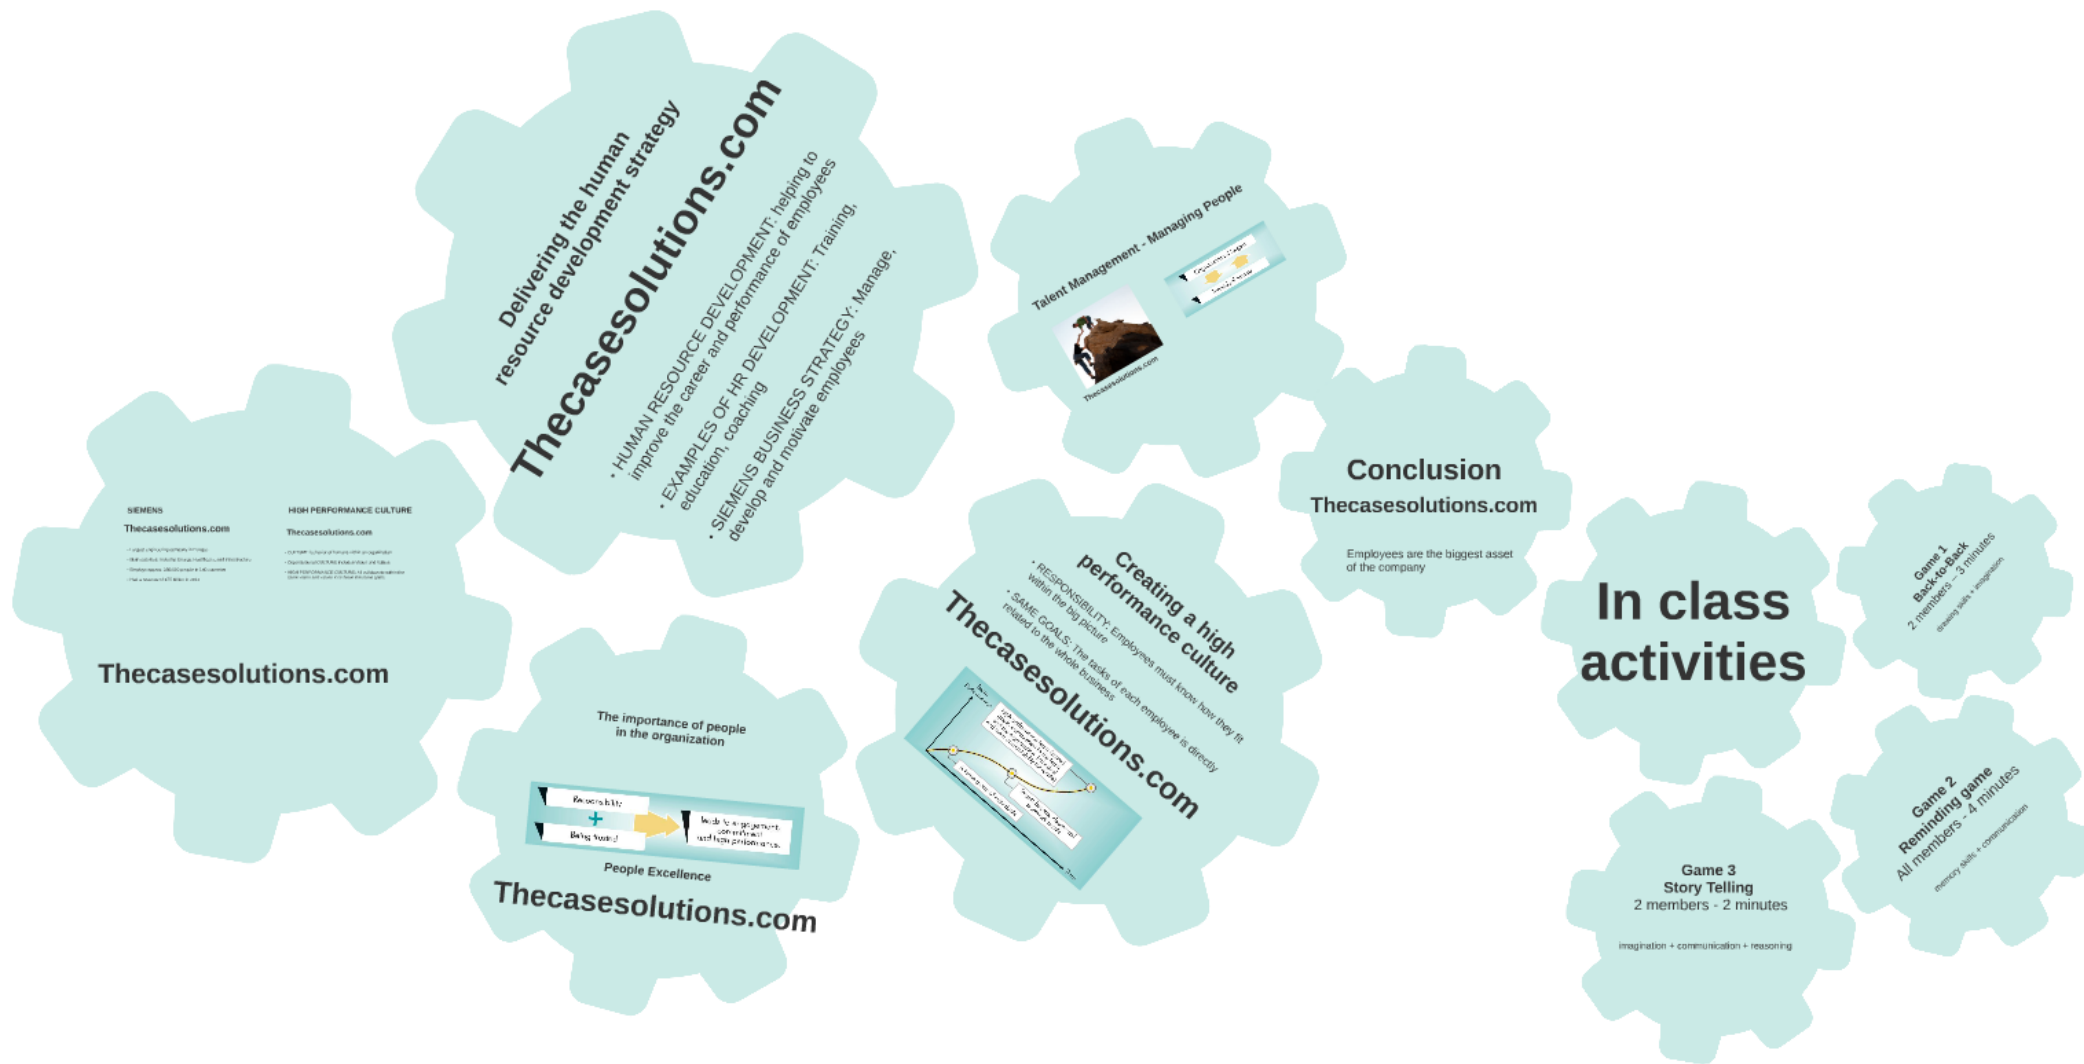

The important thing is not about price you get because life is not about the destination. It is all about the journey to get there.
