

PAPYRUS

Papyrus

- Papyrus is a plant that grows in swamps.
- In English papyrus means "a skin of a baby".
- Papyrus was used in the first Dynasty.
- Papyrus was mostly used by ancient Egyptians.
- The word paper came from papyrus.
- When papyrus is used or written on it is called papyri

What was papyrus used for?

- Papyrus is used for many things such as making sandals, Baskets, Perfume and paper. Since the paper is strong and flexible it is a property that allows it to be used in many different thing for a variety of different uses.
