Stock Market Crash Of China

Video

What is the biggest that has lead to the Chinese Stock Market Crash?

The Lead Up

- China's manufacturing tumbled down to its lowest in 77 months.
- Stock market started to develop a "bubble".
- Investors started to make small fortunes by doing "chao gu" trading.
- Then gravity hit the Chinese stock market, and brought it back down.

What are the similarities to the US Stock Market Crash of 1929?
