History of China

Thecasesolutions.com

China: was biggest trade economy of the world.
→ Large population, centralized state.

Qing Dynasty (1644-1912); Opium Wars

Republic of China (1912-1949);
unstable period

People's Republic of China (1949-):
Mao (1949-1976)

Characteristics of China's rise

Thecasesolutions.com

- The Beijing consensus:
 - > combination of capitalism and a communist political system
- Difference in growth of GDP before and after 1979
- Economic Crisis in China only decreases growth of GDP
- Increase of budget in army

Rise of China; no threat

Politically

Thecasesolutions.com

- Republic of China (on Taiwan): 1949-1979 with USA
- Military power USA vs China
- North-Korea; not the ally it used to be of China
- Political status of Taiwan → “Taiwan Relations Act”
- Thompson: USA military > China military

Rise of China: no threat

Economically

Thecasesolutions.com

- Trade USA ↔ China:
- 2000: \$116 billion
- 2012: \$536 billion
- Martin Jacques:
 - 1: “Chinese leadership needs to continue to display the same kind of patience and humility that it has shown over the past 30 years”
 - 2: “United States must get used to the idea that China is rapidly becoming its equal”
- Wasserstrom: Both countries should look at their similarities instead of differences.

Rise of China: threat

Foreign threats

Thecasesolutions.com

- Mearsheimer: "China's goals is to become a hegemony"
- Power transition theory
- China's neighbors are likely to join US when a conflict starts
- Khara: "Chinese power in international bodies is a threat"
- What if China collapses?
