Why Invest? Thecasesolutions.com

INVESTING HELPS BEAT INFLATION. Inflation is a rise in the general level of prices. It also reduces purchasing power over time. When investors seek investments they choose ones that will grow faster than the inflation rate. For example, if the annual inflation rate is 4 percent you will want your investments to have a rate of return higher than 4 percent.

INVESTING INCREASES WEALTH. Your financial success grows from the assets that you build up over time. Investing helps you accumulate wealth faster than saving your money cash would. When you invest in stocks and bonds, you are helping businesses make and sell products which in turn will reward you with dividends and interest.

INVESTING IS FUN AND CHALLENGING. Once people gain experience in the investing world it becomes almost like a game. Investing is a fun and stimulating experience which also helps you maintain financial security.

RISK AND RETURN Thecasesolutions.com

Diversification: a way to minimize risk by spreading of risk among many types of investments.

Short term investments are generally less risky because you can predict much more accurately what will happen in a week or year rather than 10 years.

SOURCES OF FINANCIAL INFORMATION Thecasesolutions.com

To make good investment choices you need good information. Some good places to look for investing advice are:

- Newspapers under the financial pages.
- Papers like the Wall Street Journal.
- Investor services and newsletters like online line and Moody's Investors services.
- Financial Magazines like Forbes or Business Week.
- Brokers like Merrill Lynch or American Express.
- Financial Advisers or certified financial planners.
- Annual Reports for companies like Pepsi.
- Online Investor Education.

Low Risk Investment (Definition)

An investment in which there is thought to be just a small chance of losing some or all of your money (typically has a low amount of capital).

Medium Risk Investment (Definition)

A type of investment that are perfect for those that are interested in investing for the long term and would like to earn moderate yields.

High Risk Investment (Definition)

An investment that carries a high degree of risk - meaning there is a strong chance that you could lose a substantial amount (or all) of your investment.

Why Invest? Thecasesolutions.com

INVESTING HELPS BEAT INFLATION. Inflation is a rise in the general level of prices. It also reduces purchasing power over time. When investors' investments grow faster than inflation, they earn a profit. For example, if the annual inflation rate is 3 percent, you will want your investments to have a rate of return higher than 3 percent.

INVESTING INCREASES WEALTH. Your financial success grows from the assets that you build up over time. Investing helps you accumulate wealth faster than saving your money in cash. When you invest in stocks and bonds, you are helping businesses make and sell products which in turn will reward you with dividends and interest.

INVESTING IS FUN AND CHALLENGING. Once you get the experience in the investing world, it becomes almost like a game. Investing is a fun and interactive experience which also helps you learn about financial security.
