

I highly recommend the book to anyone interested in Vietnam War history, because it is a compelling portrait of the average Vietnam veteran, not only during his time there, but also his childhood and his years.

I found the end of the book to be very interesting, as he has a dream where he meets his deceased great grandfather. After the war, Kerrey pursued a career in politics, becoming a US senator from Nebraska, and eventually, the Democratic governor there. He also opened a chain of restaurants and health clubs in the early 1980s. He also served on the National Commission on Terrorist Attacks Upon the United States. He is currently married to Sarah Pinsky, with whom he has a son named Henry. He also has six children from a previous marriage named Ben and Lindsay.

Other characters in the book included James Kerrey, Bob's father, among others. While he was there, he led a raid on Thanh Phong, expecting to find many Viet Cong soldiers, but they instead killed many women and children. At the end of the book, Bob has a dream where he meets his great grandfather.

Bob Kerrey

Bob Kerrey was a US Navy SEAL. He was in SEAL Team One. While he was there from 1966-1969, public support for the war began to dwindle, and a lot of craziness was going on back home.
