**Q) As Educators, what should we be doing?**

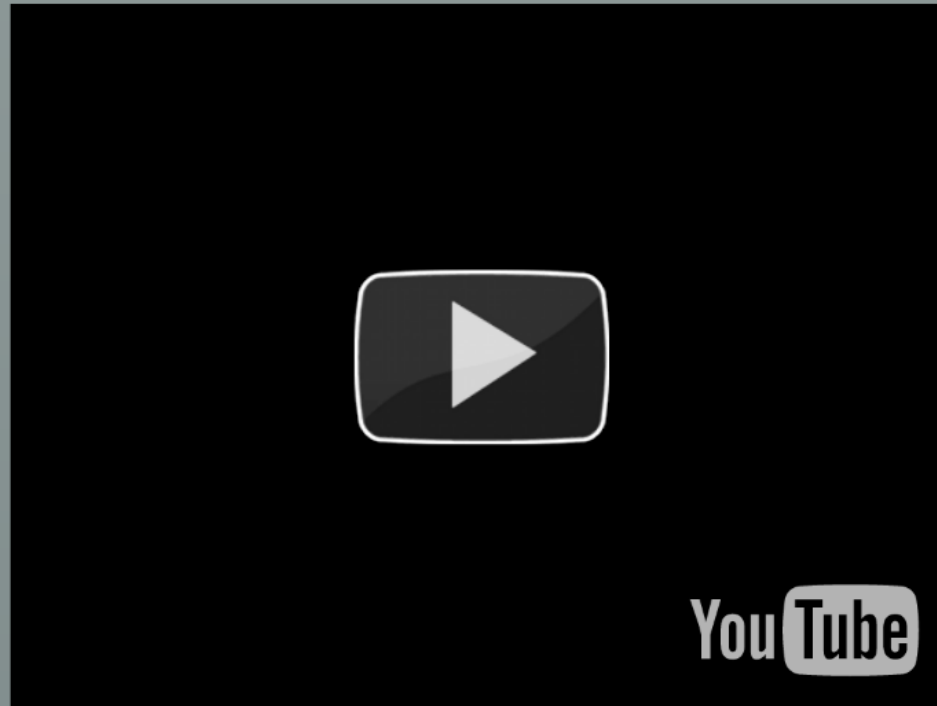

## A) We should be educating our students to become independent learners.

### Independent Learning Cycle

**Learning isn't something that happens  
two hours a week on a Friday in lab 5 with Mr  
Baker.**

**Learning is something that happens 24/7/365.  
Exactly when, during this 24/7/365 each student  
learns effectively, will differ for each individual  
student.**

**So, following on from this, we, as educators  
should provide the means for this 24/7/365  
learning to happen.**

**HOW?**

**By removing the box completely and  
thinking differently.**
