Geography

Thecasesolutions.com

Only 110 miles east to west, but

2,653 miles of coastline

- home to the southernmost part of South America: Cape Horn

Known as the sailor's graveyard this was the main and dangerous route of ships before the opening of the Panama Canal and sits only 621 miles from Antarctica. It is now a historical site and used in many yacht races in present day

Food Completo

Cazuela Mariscos

There's a "once meal" which is like dinner for the US. This is the end of the day meal where families gather and spend time

Known for their beef and chicken, and with a long coast seafood is usually a staple in most meals

empanadas

can be stuffed with nearly anything commonly eaten food

Mining Rescue

Thecasesolutions.com

-In 2010 miners were trapped after the main ramp into San Jose mine collapses leaving 33 miners trapped 2,300 feet underground, for almost 2 months they stayed trapped underground surviving on rationed food and water. All 33 came out alive and the mine closed down. There is now a movie about this "The 33"
