History

- Founded by William Boeing-a Yale student-and George Conrad Westervelt-who was a navy engineer. Both shared a passion for Aviation.
- Inspired by the Cumbersome design Biplane by the Curtis Aero plane & Motor Co
- B & W Twin Float Seaplane (1915)-was the first creation and came out of Boeing's own boat house in Los Angeles
- In 1916 Boeing incorporated with just 21 employees with a mission to become one of the world's most successful aviation companies
