# His Career

*John's career started in 1967 when he started working as vice president then president of PesiCo. He was an American businessman, entrepreneur and investor in high-tech start-ups. He took over as Apple's CEO in 1983 until he was forced out of the role in 1993. After his departure from Apple he briefly served as CEO of Spectrum Technologies. In 1995, Sculley teamed with his siblings Arthur and David to form the venture capitalist firm Sculley Brothers LLC.*

## *More About Him*

*People say that John was the one to blame for firing Steve Jobs at Apple when John was in charge, but Apple says that he left on his own because of the dispute between them about dropping the price for Macintosh. It was Job's idea and Sculley disagreed with it. After he left the company Sculley felt bad because he was a good worker.*

## ***A Quote that Describes him in his Words***

*' I've always been a risk-taker and a person by curiosity , and person who loves to connect the dots, and a person who loves to be around talented people, and likes to make bets on people. And I think that's my contribution to it all. I was on the team, but I had a real cool seat on the bus.'*
