

State Bank of India:
Transforming a State
Owned Giant

LEARNED?

As we are with others, and life itself will be with us, we should always give without expecting anything in return because the destination charge of giving us what we deserve, we value the people who are with us because they are the ones that make us really valuable and loved.

That was the reason
the boy
and the girl
were so happy
because they
were playing
with the
giant.

Thanks...
