**Fix the Present!**

The youth of Pakistan is not the future. They are the present!

**The Mindset of the average Pakistani**

The culture prevailing in Pakistan offers narrow options to the average Pakistani. The focus is on the quality of education, but also on the quality of the students. We are here to help you in your business.

**So, what's the problem?**

Nothing is better than what is. It is that they have done or what on their part to do it. Nothing is better than what is. It is that they have done or what on their part to do it.

**Cognitive Development in Adolescents**

Adolescents (13-18) in ways that are more abstract and more complex. According to Piaget's cognitive development theory, adolescents begin to think in terms of the "formal operations" stage.

What makes them tick? We are here to help you in your business. We are here to help you in your business.

WHIZ KIDS Summer Campaign 2015  
Discover Your Potential

# **The Mindset of the average Pakistani**

- The culture prevailing in Pakistan offers narrow options as future careers.
- The focus on the monetary value of a job is a barrier in the path to become a "Barha Aadmi"
- Thus there is an excess of doctors, lawyers and engineers.
- There is a fine line between attaining education and applying it in practical life.

**[Thecasesolutions.com](http://Thecasesolutions.com)**

# So, what's the problem?

- Nobody asks kids what it is that they love doing or what do they want to excel at?
- Why does any form of career counseling only begin at under-grad level, why not start from schools?

**[Thecasesolutions.com](http://Thecasesolutions.com)**

## Cognitive Development in Adolescents

Adolescents think in ways that are:

- more advanced,
- more efficient and
- more complex.

According to Piaget's cognitive development theory, adolescents (ages 12 through 18) should be at the "formal operations" stage.

**[Thecasesolutions.com](http://Thecasesolutions.com)**

## What makes them click?

- They think about what is possible rather than what is real
- They are better equipped to think about abstract ideas
- They display increased introspection and self-consciousness

**Thecasesolutions.com**

# What makes them unique?

- Their thinking is more multi-dimensional rather than limited to a single issue
- They have the ability to think about things hypothetically
- They are more cause-oriented

**[Thecasesolutions.com](http://Thecasesolutions.com)**
