

You might be wondering
"how does synthesis connect to my literature review?"
TheCaseSolutions.com

So, as you conduct your research...

What does synthesis mean?
TheCaseSolutions.com

to "combine 2 or more elements to form a new whole"

Synthesis example

The development of the ability to organize and analyze large amounts of information has been a central theme in the evolution of the scientific method. The scientific method is a systematic approach to gathering and analyzing data, and it is the foundation of modern science. The scientific method is a process that involves the following steps: 1. Formulating a hypothesis, 2. Designing an experiment, 3. Collecting data, 4. Analyzing the data, and 5. Drawing conclusions. The scientific method is a process that is used to test a hypothesis and to determine whether or not it is supported by the evidence. The scientific method is a process that is used to test a hypothesis and to determine whether or not it is supported by the evidence. The scientific method is a process that is used to test a hypothesis and to determine whether or not it is supported by the evidence.

1) Read through the example

2) Notice the green highlighted sections and how they relate to the other sections in combining them to form a whole

3) Think about what you can learn from this example, and how you can apply it to your own work

Are you ready to check out an example?

Unveiling the Magic of Design: The Role of Synthesis

TheCaseSolutions.com

What does synthesis mean?

TheCaseSolutions.com

to "combine 2 or more elements to form a new whole"

For example...

Brad Pitt

+

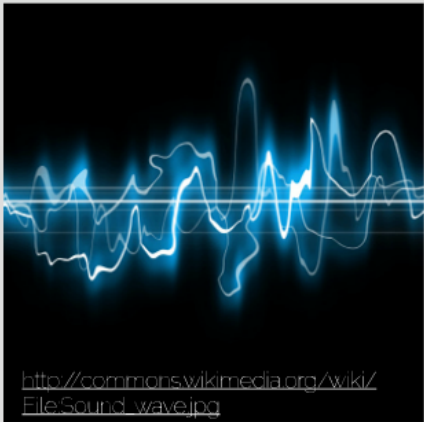

Angelina Jolie

=

BRANGELINA

Or, another example is... how a synthesizer works!

One sound wave

+

Another sound wave

=

A New Sound

TheCaseSolutions.com

basically...synthesizing
is a matter of pulling
various sources
together into some
kind

of harmony

TheCaseSolutions.com

*You might be wondering,
"how does synthesis connect to my literature review?"*

TheCaseSolutions.com

Well, when thinking
about your research it
might help to think
about what synthesis
is not...

TheCaseSolutions.com

Synthesis is NOT

- Simple summary
- Critiquing a source
- Comparing & contrasting sources
- Lots of direct quoting without using your own voice

So then, what is synthesis?
