What is the Modern Era?

The Modern Era can be separated into two different time periods; the early modern era, and the late modern era.

The early lasted from the beginning of the 16th century to the 19th and the late modern era began in the 20th century and the one we researched is the late modern era. It was a time of depression and destruction, where our world experienced the most catastrophic and violent events in history. The modern period came after the Middle Ages and was the start to several industrialization's and revolutions.

- During WWI happened in modern period
- Picasso and Van Gogh were modern times
- A famous pair was a painting

TheC

Historical Events:

Some major events happened that still affect us to this day and are fairly fresh in our minds. 1914 was the year The Great War began and it was bound to happen due to the centuries of ill feelings and tension between nations.

TheCaseSolutions.com

- Total War**
A state of conflict between nations where all resources are mobilized for the war effort.
- Scramble for Africa**
The period of European imperialism in Africa during the late 19th and early 20th centuries.
- League of Nations**
An international organization established in 1919 to maintain world peace and prevent another world war.
- Time of Ultra-nationalism AKA The In-War Years**
A period of extreme nationalism and militarism that occurred during the World War I era.
- The Holocaust**
The systematic, state-sponsored persecution and murder of six million Jews by the Nazi regime and its collaborators.

Politics

Domestic and Foreign Politics:

It has been assumed that each government was largely motivated by foreign political purpose- to:

- preserve the balance within the international system
- to gain territory or influence
- to protect the fatherland against attack or encirclement.

TheCaseSolutions.com

During the modern period woman's rights were improving. Before they could not vote because men thought they were superior to women and that women had no place in politics because it was outside of the house.

World War I drew in economic great powers. Allied nations started the war related to:

- Germany invaded Belgium and Luxembourg who was neutral
- Then Britain declare war on Germany
- Robert and Walter who were part of the government of Canada contributed to passing a law so women to go to war and the women would finally they passed the Military Voters Act.

In nations like the Soviet Union and Germany during the Modern Era, attempts to build communist and fascist states and societies occurred.

Political and economic changes were results of mechanization in society

The industrialization of many nations was influenced by the industrialization of Britain. Particular facets in the late modern era included:

- Increasing role of science and technology
- Mass literacy and proliferation of mass media
- Spread of social movements
- Institution of representative democracy
- Individualism
- Industrialization
- Urbanization

Biology
The idea of genes were eventually accepted and developed significantly.
- Studies of DNA (Mendel's experiments, Darwin's theory of evolution)
- Watson and Crick's discovery of the structure of DNA
- The role of RNA in protein synthesis was also understood in this time.

Engineering & Technology
Achievements:
- Railroads
- Steam engines
- Cloth factories
- Telegraphs
- Electric power
- Automobiles
- Airplane
- New materials such as steel, plastic, polyethylene.
- Mining
- New chemicals
- Space Race
- Space Probes

Medicine
Many vaccines were produced and developed for numerous diseases such as:

- Polio (Salk and Sabin)
- Measles
- Mumps
- Chicken Pox
- Influenza
- Hepatitis A
- Diphtheria
- Hepatitis B
- Whooping Cough
- Smallpox

Other Events/Discoveries
- X-rays introduced
- Creation of Stethoscope
- Consumption of Tobacco
- Penicillin like
- Influenza - Spanish Flu
- AIDS
