## A Prolonged Battle over Intellectual Property Rights

TheCaseSolutions.com

What happened after World War 2?

TheCaseSolutions.com

### Germany

Germany was divided into 2 parts:  
Western government  
and East side in the East was communist  
and Eastern Germany was Soviet Union  
to help the economy  
Western government

TheCaseSolutions.com

### England

Land Loans with from America  
over 50% of war loans and into war  
and 80% had long  
England had to accept to have colonies which it  
never had during the war

TheCaseSolutions.com

### Canada

Industrial output warlike policies  
which warlike policy had gone back to them  
and war time  
"holby house"  
and eventually merged  
Canada the get more better

TheCaseSolutions.com

### Soviet Union

population drastically increased  
like everywhere the Soviet Union was poor  
relations between America and Soviet  
Union started very rocky after the war  
the Soviet Union controlled Poland, Bulgaria,  
Hungary, Czechoslovakia, Romania, Albania,  
and east Germany through political and  
economic influence

TheCaseSolutions.com

### Economy

50% of industrial production of the countries were developed  
Europe started to grow  
Trade the economy started to increase  
After war time production from the war was back  
to 1940  
Peace and Play great stability

TheCaseSolutions.com

What happened after World War 2?

TheCaseSolutions.com

### Germany

Germany was divided into 2 zones  
western controlled  
the east became the soviet controlled  
some factories in soviet zone were destroyed  
the soviet zone was not allowed to trade with western zone

TheCaseSolutions.com

### England

United Kingdom and France, Australia,  
and over 70% of americans took sides with  
and about 1000000  
England had to spend to build a country which is  
stronger than any other

TheCaseSolutions.com

### Canada

strengthened social welfare programs  
strong economy after the war  
the soviet zone was not allowed to trade with western zone

TheCaseSolutions.com

### Soviet Union

population drastically increased  
the soviet zone the Soviet Union was poor  
hostilities between America and Soviet  
Union started very quickly after the war  
the Soviet Union controlled Poland, Bulgaria,  
Hungary, Czechoslovakia, Rumania, Albania,  
and East Germany through political and  
economic influence

TheCaseSolutions.com

### Economy

with an industrial revolution in the soviet zone  
the soviet zone was not allowed to trade with western zone  
the soviet zone was not allowed to trade with western zone

# What happened after World War 2?

[TheCaseSolutions.com](http://TheCaseSolutions.com)

# Germany

Germany was divided into 2 parts

puppet government

All land taken in the war was returned

paid England, France, and Soviet Union.

intellectual reparations program

no help for rebuilding

industrial disarmament

[TheCaseSolutions.com](http://TheCaseSolutions.com)

## England

Lend Lease aid from America

over 55% of workforce put into war

aid didn't last long

England had to resort to bread rationing which it never did during the war

[TheCaseSolutions.com](http://TheCaseSolutions.com)

## Canada

adopted social welfare policies

most women who had jobs went back to their pre war lives

"baby bonus"

car ownership increased

Family life got much better

[TheCaseSolutions.com](http://TheCaseSolutions.com)

# Soviet Union

population drastically decreased

like everyone the Soviet Union was poor

hostilities between America and Soviet Union started very quickly after the war

the Soviet Union controlled Poland, Bulgaria, Hungary, Czechoslovakia, Romania, Albania, and east Germany through political and economic influence

# Economy

70% of european industrial infrastructures were destroyed  
Soviet Union lost 1,710 cities

Soon the economy started to increase

West Germany doubled production from its pre war levels  
by 1950

France and Italy grew drastically
