About Massport

- There are 120 members on the fire dept.
- The organizational structure is para-military. Which means there is one commanding officer with delegating authority
- The duties of a firefighter at Massport is to respond to all emergencies. These could be structural, medical, hazardous material, aircraft, or any unforeseen disaster or emergency at Logan Airport or any impacted communities.
- The primary benefits of this department are to provide emergency services to the flying public and the agencies that provide all related services including businesses designed to accommodate any individual needs.
- Massport Fire is very close with the State Police on Logan Airport, which is unusual because they usually disagree.
- At Massport the Firefighters have to train to work with Aircraft fires, where as other Fire Dept. train for structural fires

Chris Doyle

- Chris always knew he wanted to be a Firefighter. Many people he looked up to, including his grandfather and several uncles, were Firefighters.
