It All Started With A Vision
Thecasesolutions.com

"Being the chief man in the company does not mean to me... Going to bed at night looking for how to do something wonderful... It's a whole different world." This quote from Steve Jobs is a powerful and concise statement of his vision. It shows that he was not just a man of ideas, but a man of action. He was always looking for ways to improve and to create something new. This is a key trait of a great leader.

Steve Jobs

CEO of Apple

Born February 24, 1955 - Died October 5, 2011

Group has unanimously selected Steve Jobs as our Leader for this project.

Collectively we like his leadership qualities and his ideals of personal responsibility

Steve Jobs once said, "People think focus is saying yes to the thing you've got to focus on. It means saying no to the other hundred good ideas that there are."

Conclusion

Steve Jobs had a profound effect on business and technology worldwide. He almost single-handedly changed the way we purchase music with the introduction of the iPod and iTunes. The smartphone industry is forever changed with the iPhone being the model for what a smartphone should be. Apple continues to roll out innovative ideas that change our everyday life thanks to the vision and drive of Steve Jobs. Although he has since passed away his ideas and vision are still recognized today and will be forever. It is because of him that we will strive to be leaders in our fields and change the world with our skills that we are working towards mastering here at DeVry. Steve Jobs said that perseverance is the difference between those that are successful and those that are not. We will continue to persevere and build on our strengths and skills to graduate and move on to a successful career in our fields.

"Being the richest man in the cemetery does not matter to me ... Going to bed at night saying we have done something wonderful ... that's what matters to me". This quote from Steve Jobs is very powerful and shows what kind of man he was. It shows how he was not driven by money but by pure creativity. His drive and passion was one of the many reasons we have chosen to highlight him as a leader. Steve Jobs, as many know, started Apple and after many hardships, including being fired from the company, then led it to be one of the top, technology companies in the world. We are here to show you why his leadership has had such an impact on the business and technology world and show how we can become great leaders in our own fields as well.

Design and Web Design

ent industry has always fascinated

My Leadership Qualities

Democratic Leadership Style

Thecasesolutions.com

Strengths

- Honesty, Motivation, Passion and Vision.
- These traits are going to help me lead employees in the workplace.
- These strengths will help me to gather a huge network and be able to help pave the way for others.
- I plan to use these skills to become an effective leader and help lead all my teams to victory.
- I plan to continue my studies in leadership and I plan to take on roles where I can utilize my skills.
- All the assessments that I completed have shown me that I have the ability to motivate and properly lead people.

Weaknesses

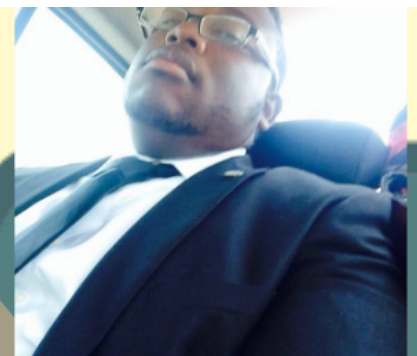

- My weakness is that I may sometimes be too naive.
- I can get really harsh, petty and abrasive at times.
- In order to make a positive change I need to be more observant.
- I need to have better control of my emotions.
- I plan on working on controlling my emotions better.
- I must build more confidence in my abilities then the random outburst will not happen.

Thomas McMillan

Multimedia Design and Web Design

- The entertainment industry has always fascinated me and I feel that with a career in web design, I can use my creativity to eventually work at a company like Warner Bros or Marvel.
- I expect to complete this program no later than the end of 2017.
- Leaders in my field include Marc Andreessen, Eric Bina, and, of course, Steve Jobs.

My Leadership Qualities

Democratic Leadership Style

Thecasesolutions.com

Strengths

- I have very good conflict resolution skills and can work with others to solve problems.
- I can learn in many different ways which will help me adapt when learning new skills in my field.
- I have an outgoing personality that will help me to connect with people in my field and be a leader as well.
- I am not afraid to venture out and explore new opportunities that will aid in my success in life.
- I am very much a 'people person' and love getting feedback from others when looking to solve problems and work on job assignments.

Weaknesses

- I sometimes lose focus which could take me off my path to success.
- Although I usually tend to be able to resolve conflicts, I do have times where I am too stubborn in situations when I believe I am right.
- I have times that I get too caught up in my thoughts and can freeze up when trying to tackle adversity in my life.

Johnathan Perez

Networking and Communication Management

- I chose this path of networking because I've always liked dealing with computers just never really learned to go in depth but it has always interested me. So now have the chance to learn many things about computers.
- Leaders in my field: Marc Andreessen, Eric Bina, and, of course, Steve Jobs
- I'm looking forward to complete my bachelor's degree no later than 2017.
