# What is E-commerce?

E-commerce is creating a new economy, one that is connecting producers, sellers, and customers via technology in ways that have never been possible before. The result is a new method of doing business that is turning traditional methods of commerce and industry on their heads.

## Follow A Simple Design

- Avoid clutter by using less text, especially on your site's homepage
- Make the site easy to navigate by including easy-to-follow navigation buttons.
- Minimize the number of clicks required for a customer to get to a particular part of the site.
- Include a frequently asked questions (FAQ) section.
- Incorporate meaningful content in the site that is useful to visitors
