

Current Events Item

Colombia has recently decided to stop using planes to fumigate coca fields (used to make cocaine). The concern is that while this spray helps with the war on drugs, some people think it may cause cancer. This decision defies the U.S., as the U.S. had been backing this practice. The United States Environmental Protection Agency says that there is not enough evidence about the spray that might deem it harmful.

The regions where coffee is cultivated are places that attract a lot of tourists, especially the city of Armenia (above). Another tourist destination is Cabo de la Vela (right), which translates to "Cape of Sails". It has a fishing village nearby, which is very popular among fishermen. Another famous landmark of Colombia is the Doña Juana-Cascabel Volcanic Complex (left), which is a national park containing a few volcanoes.

# Cultural Practices and Traditions

There are three main styles of music in Colombia: bambuca, vallenato, and cumbia.

Families are very important in Colombia, even extended families, and children tend to stay close to their families when they grow up.

About 70% of the Colombian population is Roman Catholic, but a wide variety of other religions are present in the country as well.
