Development of Unified Electronic Portal

TheCaseSolutions.com

Project Aims

- ✓ Develop and improve Unified Electronic Portal of State Property Registry and Disposal
- ✓ Create a Unified Database
- ✓ Ensure transparent, accessible and prompt services

TheCaseSolutions.com

Current Problems

- ✓ Absence of softwear
- ✓ Absence of Unified database
- ✓ Absence of unified database of potential consumers/purchasers
- ✓ Weakness of control mechanisms of State Owned Enterprises
- ✓ Absence of distance services
- ✓ Low level of awareness about the services provided by the Agency
- ✓ Necessity to delegate services to PSHs

TheCaseSolutions.com

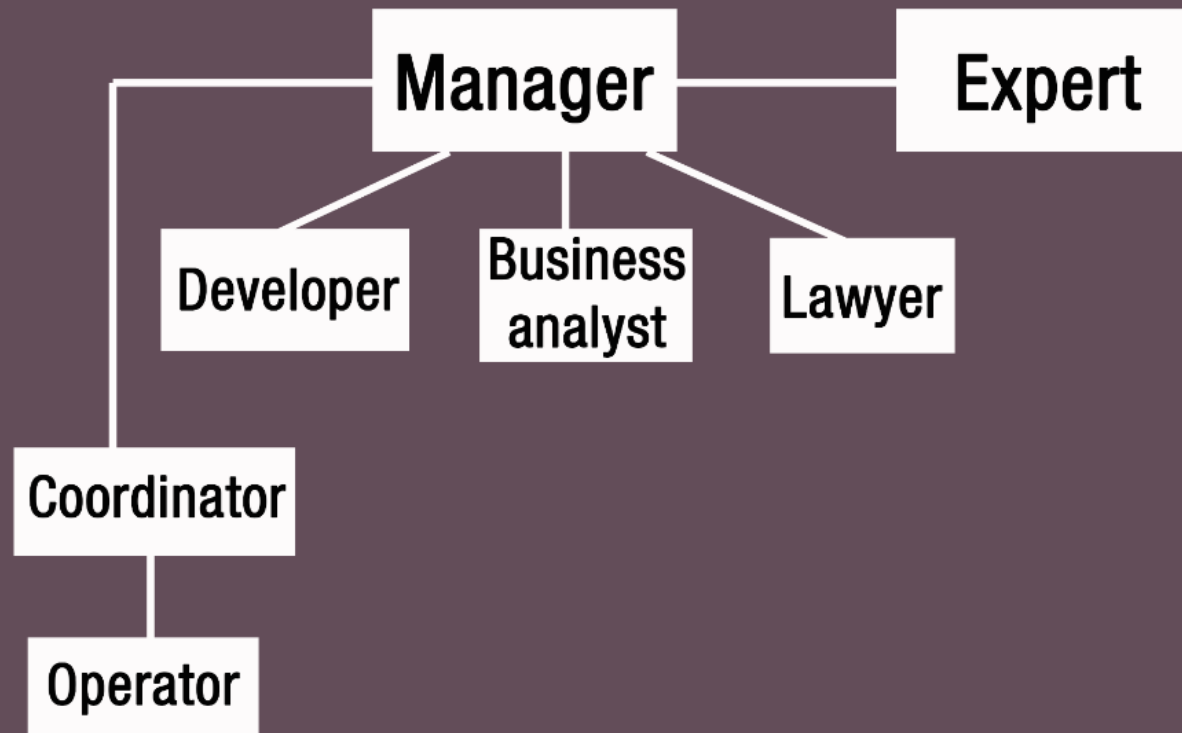

Obligations

- ✓ Georgian Government Plan – formation and development of Unified electronic portal of State Property Registry and Disposal
- ✓ Anti corruption council – ensure increased accessibility on information about privatization objects and formation of effective system of transparency and accountability of SOEs
- ✓ “Open Governance Georgia” Forum – Ensure transparent and accessible services of State Property management and disposal

TheCaseSolutions.com

Project Team

TheCaseSolutions.com

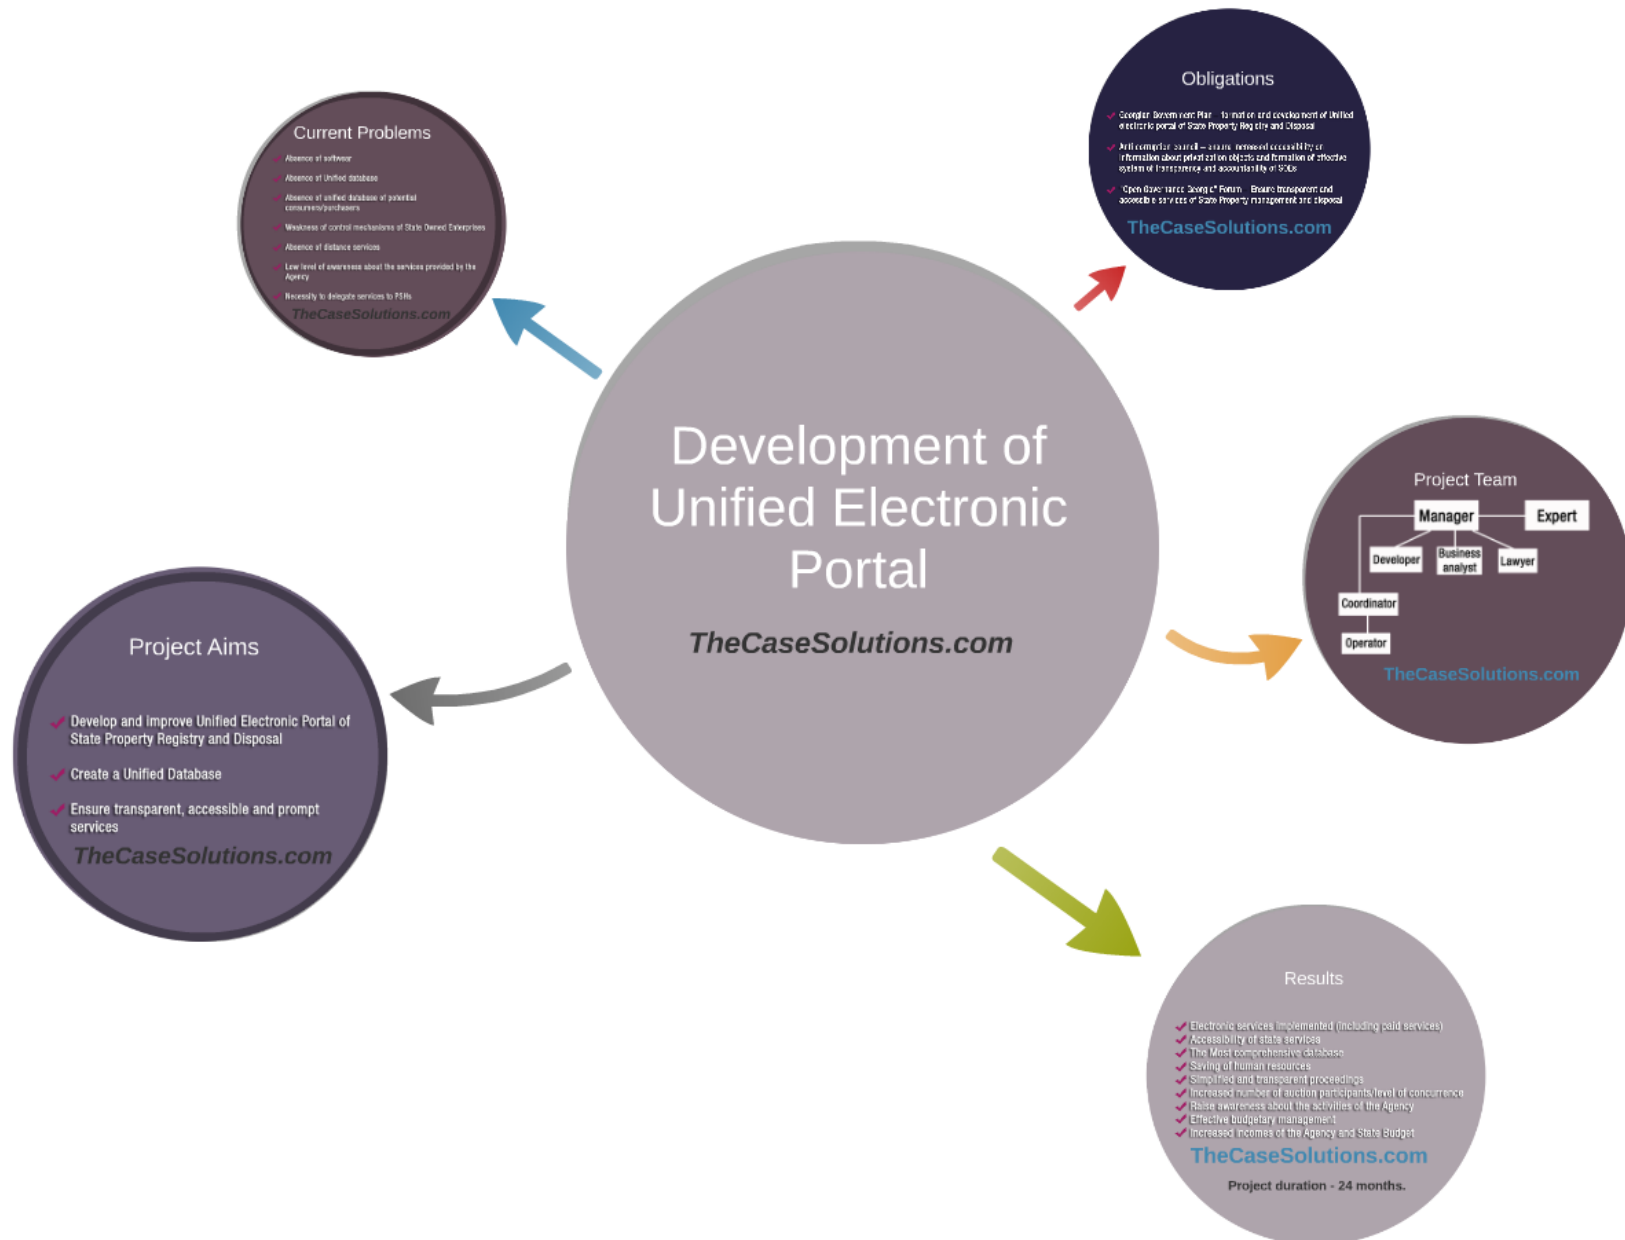

Results

- ✓ Electronic services implemented (including paid services)
- ✓ Accessibility of state services
- ✓ The Most comprehensive database
- ✓ Saving of human resources
- ✓ Simplified and transparent proceedings
- ✓ Increased number of auction participants/level of concurrence
- ✓ Raise awareness about the activities of the Agency
- ✓ Effective budgetary management
- ✓ Increased incomes of the Agency and State Budget
