“Positive people are the people who do the most in life. They are the people who are not afraid to try, who are not afraid to fail, who are not afraid to be different. They are the people who are not afraid to be themselves. They are the people who are not afraid to be happy. They are the people who are not afraid to be successful. They are the people who are not afraid to be loved. They are the people who are not afraid to be free. They are the people who are not afraid to be alive. They are the people who are not afraid to be here. They are the people who are not afraid to be now. They are the people who are not afraid to be you.”

By the author of the book "The Power of Positive Thinking"

The name Vic Ferrari
was, perhaps obviously,
a pseudonym...

The name of a
character from
the sitcom Taxi
(1978-1982)

This ensured
the writer's
anonymity as
he explored
what were
controversial or
avant-garde
topics in the
world of hockey
at the time

ENHANCED STATS DEFINED

For the first time, enhanced statistics are now available on NHL.com. "Enhanced statistics" are statistics derived from the NHL's real-time scoring feed with clearly defined formulas. Shot attempts (SAT), also known as Corsi, and unblocked shot attempts (USAT), also known as Fenwick, are two enhanced stats that are commonly used as a proxy for puck possession. The variations of these enhanced statistics give insights into analysis of time on ice, relative performance and in-game context. Also displayed for the first time, are other enhanced stats such as primary and secondary assists (1st A, 2nd A), rate stats like goals/20 (G/20) and zone starts (ZS%).

Shooting Statistics	Shooting Percentages	Shooting Stats per TOI	Scoring Stats
<p>Shot attempts (SAT) and unblocked shot attempts (USAT) are used to measure puck possession for a player or team. When a shot is attempted during 5-on-5 play, all of the skaters on the ice for the team that attempted the shot receive a +1 in shot attempts (SAT) and the players on the opposing team receive a -1. If the attempt is not blocked, the players on the shooting team also receive a +1 in unblocked shot attempts (USAT) and the players on the opposing team receive a -1.</p> <p>Examples of Shooting Statistics</p> <p>SHOT ATTEMPTS FOR (SAT FOR) Calculation = (5 on 5): Team shots on goal + team missed shots + opponent blocked shots (excluding empty net). Also called <i>Corsi for</i></p> <p>SHOT ATTEMPTS AGAINST (SAT AGAINST) Calculation = (5 on 5): opponent shots on goal + opponent missed shots + team blocked shots (excluding empty net). Also called <i>Corsi against</i></p> <p>UNBLOCKED SHOT ATTEMPTS FOR (USAT FOR) Calculation = (5 on 5): (5 on 5): team shots on goal + team missed shots (excluding empty net). Also called <i>Fenwick for</i></p>

Capitals hire Barnes AKA "Vic Ferrari" as analytics consultant

TSN.ca Staff

Comments (1) | [f](#) [t](#) [g+](#)

Alex Ovechkin, The Canadian Press

The Washington Capitals announced Saturday that the team has hired Tim Barnes as an analytics consultant.

Barnes' claim to fame is actually under an online pseudonym: Vic Ferrari.

As author of the web site Irreverent Oiler Fans, Barnes established a reputation as one of the fore-runners hockey analytics.
