# Thecasesolutions.com

A sandcastle on a beach at sunset. The sandcastle is illuminated from within, with warm lights glowing through its various openings and arches. The background shows a beach, the ocean, and a sky filled with a sandstorm, where the sun's light is diffused by a thick layer of sand and dust, creating a hazy, golden atmosphere. The overall scene is dramatic and atmospheric.

## What is a sandstorm?

A sandstorm is formed when dry wind blows over a dry landscape like deserts with then carries clouds of dust and sand away. Sandstorms happen with no warning and cause a lot of damage.

A sand sculpture of a horse lying down, set against a background of sand dunes. The horse is the central focus, sculpted in a realistic style with visible details in its mane, tail, and legs. The background consists of natural sand dunes with some tracks and textures visible. The overall scene is a desert landscape.

# Blindness Of People Because Of Sandstorms

Sandstorms may cause blindness of the person. This is caused when the sand or dust from the sandstorm enters your eye. But just because a little sand goes in your eye doesn't mean your going to go blind. Sand or dust has to be entered in your eyes and left there for some time for you to go blind.

# HEALTH HAZARD

A large sandcastle is the central focus, featuring a detailed dragon on the left and a multi-towered castle on the right. The dragon is intricately carved with scales and a spiked back. The castle has several towers and a large arched entrance. The sandcastle is built on a sandy beach with a wooden fence in the background and a lush green forested hillside in the distance.

Sandstorms are always health hazards because the dust and sand get in your eyes and mouth. When sand gets in your mouth there is risk that your breathing may stop.

Nature

**Thecasesolutions.com**

Toxic and population maybe in the sandstorm. When the sandstorm end the toxic and population will be dropped where the storm ended meaning now the nature will be intoxicated. The people living in that area will be affected such as the animals as well.

A traditional mud-brick oven, known as a tandoor, is the central focus of the image. It is a large, rounded structure made of yellowish-brown mud, with a small arched opening on the left side. In front of the oven is a large, dark wooden wheel with many spokes, which is used to rotate the oven's interior. The background shows a dry, dusty landscape with some sparse vegetation and a clear blue sky. The overall scene is set in a rural, arid environment.

## *Conclusion*

**Thecasesolutions.com**

There are some other effects but, all are very dangerous. So when ever you see a sandstorm get inside lock the doors and get some thing you can do for some time. And if your in a car then go to the side of the road and wait for it to end.
