- Altcoins and Forks

10000

The image features the number '10000' in a large, bold, 3D font. The digits are filled with a vibrant gradient that transitions from a bright blue at the top to a deep purple at the bottom. Each digit has a thick white outline and a subtle shadow effect, giving it a three-dimensional appearance. The number is positioned in the center of the frame, set against a background of a clear blue sky and a bright blue ocean. The entire scene is reflected in the water below, creating a symmetrical effect. Four bright, starburst-like light effects are placed above each of the four zeros, adding a celebratory or significant feel to the number. The overall aesthetic is clean, modern, and visually striking.

- **Cryptocurrency**
- **Created 2009**
- **Invented by Satoshi Nakamoto**
- **17 Million Bitcoins in circulation**
- **21 Million Bitcoins will eventually exist**
- **Market cap ~\$190 Billion**
