Maternal-child nursing  
Medical-surgical nursing

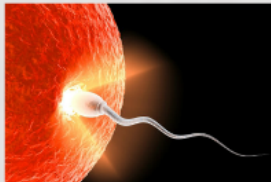

# ***Pediatric Nurse Practitioner***

As a CPNP I will work with children from infancy all the way to young adulthood diagnosing illness, conducting exams, and, in certain circumstances, prescribing medication.

# *Fertility Nurse*

A fertility nurse works with a women's or a couples infertility. They also provide emotional support as well as information them about the possible treatments available to them.

Fertility nurses draw blood, coordinate test schedule, help with ultrasounds, and help adminiser ivf treatment, or teach paitents how to administer ivf themselves.

# *Traveling Rn*

Becoming a travel nurse would allow me to travel the country in a high-paying position while also helping people. Essentially a travel nurse would have the same duties a nurse would have within a healthcare establishment closer to home. You are also provided with great benefits.

# *Requirement*

A travel nurse must have an RN degree. There are three pathways to becoming a registered nurse: A hospital-based nursing school, which usually takes four years to complete; an associate's degree in nursing, which generally takes two years (followed by another 1-2 years of schooling for a bachelor's degree); or a bachelor's degree (four years) in nursing (BSN). The American Association of Colleges of Nursing (AACN) considers a bachelor's degree to be the minimum requirement for any career in nursing.

After becoming an RN (and passing the N-CLEX exam), an individual can choose to specialize in an area of interest such as acute care, surgery, pediatrics or cardiac care by getting a master's degree in nursing (MSN).

- Go to Butte College for two years and receive my ASN
- Transfer to Sonoma State and get my BSN

# GOAL

Describe what you want to achieve  
• After several years of working in the field  
• I want to be a nurse practitioner  
• I want to be a nurse practitioner  
• I want to be a nurse practitioner

After a long time of working in the field  
• I want to be a nurse practitioner  
• I want to be a nurse practitioner  
• I want to be a nurse practitioner
