Traits of a Leader

- *has integrity*
- *a people person*
- *is positive*

Management is based more on written communication, while leadership is based more on verbal communication.

If management is reactive, leadership is proactive.

While management assesses individuals primarily by their name, past records, present and previous capabilities, and enables to produce, being proactive in things that will be successful, i.e. it deals with future and the performance of people if plan concerned is help executed.

A Innovative helps people by:
-motivating them
-providing directions
-making sure they are working together toward a common goal
-removing roadblocks and
-providing feedback.

What is a Innovativ?

*A Manager is a person who helps others get more done.
(F. John Reh)*

A Innovative helps people by:

- *motivating them*
- *providing directions*
- *making sure they are working together toward a common goal*
- *removing roadblocks and*
- *providing feedback*

Difference between Innovative And Reaction and Leadership

While managers lay down the structure and delegates authority and responsibility, leaders provides direction by developing the organizational vision and communicating it to the employees and inspiring them to achieve it.

While management is based on planning, organizing and controlling; leadership is part of directing function. Leaders focus on building relationships, motivating and inspiring.

While a leader gets his authority from his followers, a manager gets his authority by virtue of his position in the organization.

Management is based more on communication, leadership is based on verbal communication.

If management is reactive,

the organization's

A manager's job is to plan, organize and control resources to achieve the organization's purpose and objectives. (John Kotter)

Difference between Innovative And Reaction and Leadership
