Risk Management?

We know the idea of risk management can seem pretty daunting...
Just ask George...

Risk & Risk Management:

Risk: It's the possibility of a loss or other adverse event that has the potential to interfere with an organization's ability to fulfill its mandate

Risk Management: Identification, assessment, and prioritization of risks followed by coordinated strategy minimize, monitor, and control the probability and/or impact of negative events

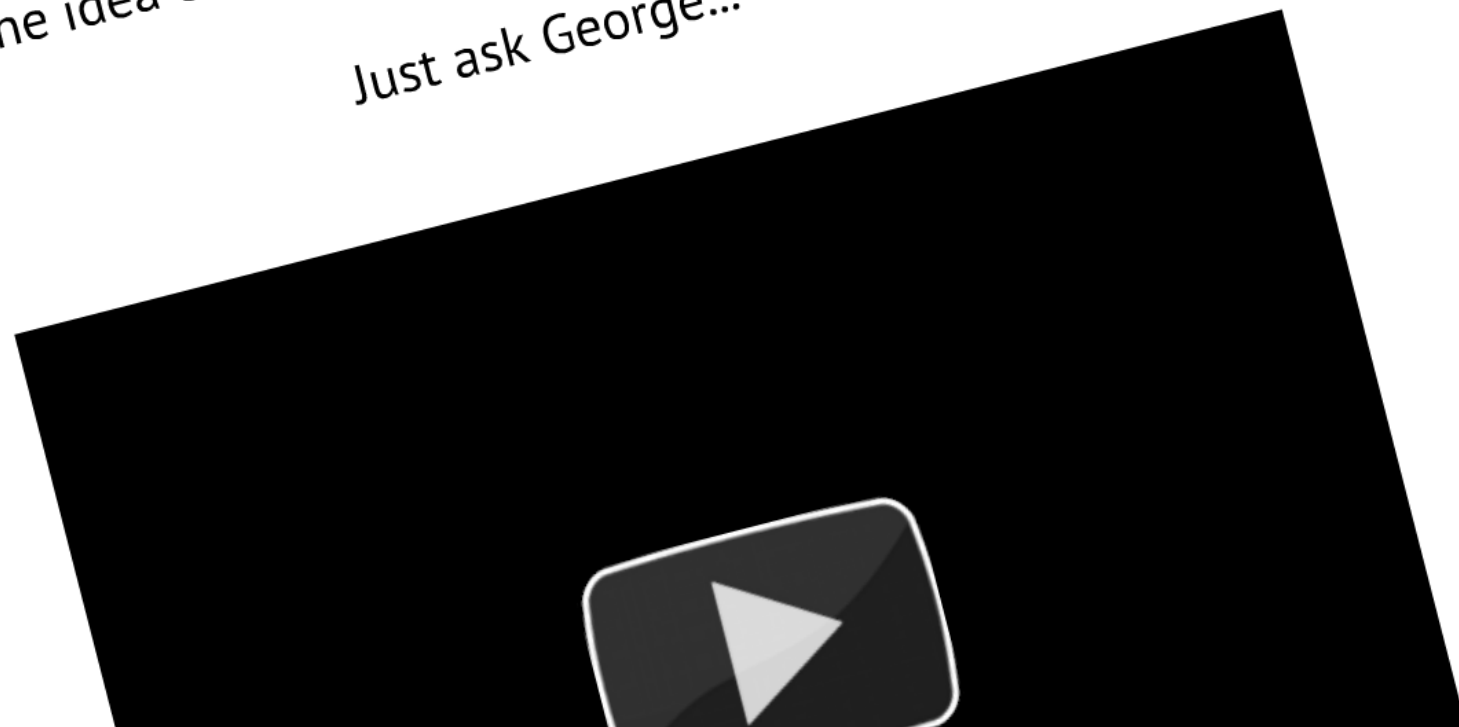

BUT, by the end of our presentation, you will have a clear understanding thanks to an example of risk management in action!
