

MOBILE TECHNOLOGY

ADVANTAGES

TheCaseSolution.com

- You can carry a mobile phone with you so you don't miss important calls
- If you are lost, you can call for directions.
- If you are in an accident, you can call the police or ambulance - and if the phone has a camera, you can take pictures of the accident.
- You can listen to music, text, play games when you're bored.
- Most mobile phones have a calculator and a phone book.
- You can use a mobile phone to call your customers or boss if you are running late to a meeting.
- You can surf Internet & Connect with the whole world by Mobile.
- You can chat & video conference.
- Keep in touch with friends and family
- Good for emergencies
- Employees can keep in touch at all times.
- Customers can contact staff 24/7
- Phones have internet connection
- More work available
- They have cameras
- You can check your emails
- Can be used worldwide
- It can fit in your pocket.

DISADVANTAGES

- Mobile phones can be expensive
- They can damage your ear
- Sometimes the reception is poor in some areas, limiting your connectivity (you can't talk underground or on planes).
- People use the phone while they are driving, and this can cause problems.
- They can limit your face to face time with friends and family
- They can get you in trouble at school
- Can be expensive
- Can be hard to find the right package
- Can ruin the connection to the computer.
- Staff can abuse their phones if they have internet connection
- Can be hard for older people to use.
- Because of their smaller size, they can be easy to lose.
